Letter to Partners

June 2025

Dear Partners

Enclosed is the report for the Fund for the quarter to 30 June 2025. Two drawdowns and one distribution were made during the period so at the end of Q2 (25) the Fund deployment sits at £76.1 million of capital committed, with a further £8.6 million of deferred consideration, to be drawn in August, in the Fund. This means the total capital deployed and committed remains at 63% of the Fund as at 30 June 2025.

Over the last quarter we have reviewed in excess of 86 new opportunities, 6 of which represented potential platform opportunities and 80 potential bolt-on opportunities. We continue to strengthen our pipeline of opportunities for the existing portfolio with a principle focus on BBS, TXP (the recently rebranded Concept/Jumar) and ITM.

Metatech (Project Monaco) was the only deal to complete during the quarter, adding significant legacy system modernisation capability to TXP, and was delivered without the need for additional equity from the Fund. The two bolt-on opportunities within the BBS business have progressed positively with one anticipated to complete by the end of August and the other nearer the end of the year, with a longer list of further opportunities at an early stage. TXP have advanced one of the off-market opportunities significantly and expect to sign HOT's during August and ITM have refined their target list to around 10 businesses which would be highly accretive to their strategy. We expect some of these opportunities to conclude during Q3 and Q4.

Despite a stagnant economic climate the performance across most of the portfolio companies continues to deliver at or ahead of budget levels, with Athera continuing to lag.

ITM followed a strong Q1 performance with a very similar Q2 maintaining the above budget performance for the half year. The second half is expected to slow a little, but we still anticipate positive momentum in the holding value as the year progresses.

TXP delivered a second quarters EBITDA performance ahead of budget and also saw a healthy uplift in the LTM EBITDA, due to the strong performance from the Technology division and the contribution from the recently acquired Metatech. As a result, the carrying value has returned to parity, as forecast in the last quarterly report.

Athera continues to experience a very sluggish market and fell behind budget in Q2, but the pipeline remains healthy, and we remain hopeful that this and the recent 'Bon Secour' win (Irish Private hospital) should help to boost revenues in the second half.

BBS continued its strong start with another quarters performance ahead of budget, mirroring the experience of Q1 and the prior year, and the indications are that this level of performance could be maintained for the remainder of the year. The back-office capability is evolving well in anticipation of the acquisitions expected in H2, and these coupled with the strong performance should see positive movement in the holding value by the year end.

On behalf of the Aliter Team, thank you for your continued support.

For and on behalf of the GP of the Fund
Billy Allan
Director
Aliter Capital GP II LLP

Business Overview

- MARCH Engineering ("MARCH" or the "Group") is Aliter's investment platform in the technical services space in the UK.
- MARCH self-delivers complete lifecycle asset engineering services focused on critical assets and complex facilities owned and operated by blue chip customers across a variety of non-cyclical sectors, including: Food & Beverage, Government & Education, Commercial, Defence & Nuclear, Industrial, Pharma and Utilities.
- Core service capabilities: Maintaining, planning, designing, installing and renewing technical service infrastructure, process control, automation, energy and energy efficiency solutions.

Value Creation

- Our strategy is to achieve a premium valuation supported by a strategy that would enhance the current profile of the business, focusing on earnings quality, growth and reducing pensions risk, ultimately improving its attractiveness to an ultimate buyer.
- Improve earnings quality / financial characteristics:
  - increased contribution from process services;
  - continued focus on moving away from work that is lower margin, in less attractive / more cyclical sectors;
  - increasing proportion of contracted and recurring revenue;
  - further cross-selling, creating a more entrenched position with its customers; and
  - more diversified end-market profile whilst maintaining a focus on critical assets.
- Increased focus on growth:
  - improving the group-wide business development function; and
  - accretive M&A.

Investment Update

- A formal sale process to explore the sale of March was launched in 2024, after an pre-emptive approach from EMK Capital. DC Advisory were appointed to support the shareholders and management team.
- On 30 October 2024, the Fund announced the sales of March to EMK Capital. The transaction completed with funds moving at the end of November 2024.
- The transaction structure represents an EV of £190m which is equivalent to 11.4x adjusted LTM EBITDA of £16.6m. This results in a gross investment multiple of 2.76x and Gross IRR of 80%.
- There is potential for earn-out and tax recovery payments to be made in 2026, no value has been attributed to these at the date of the report but the valuation may be updated once we have greater visibility of potential payments.
- Valuation metrics have been updated to reflect the terms of the completed deal.

Athera

Sector: Healthcare Analytics

(all amounts are in GBP '000s unless otherwise stated)

Financial and Operational Update

£'000	(Entry) 31 Mar 2022	(Reported) 31 Dec 2024	LTM 30 Jun 2025	Q2 2025 (Actual)	Q2 2025 (Budget)
Revenue	595	3,598	3,383	825	935
Gross Profit	561	3,110	2,958	733	833
EBITDA	229	(12)	(172)	96	239
Adjusted EBITDA	362	857	627	158	239
Adjusted EBITDA Margin	61.0%	23.8%	18.5%	19.1%	25.6%
Gross Financial Debt	(1,019)	(1,848)	(1,735)	(1,735)	(1,745)
Net Cash/(Debt)	465	(1,078)	(507)	(507)	(836)
Net Leverage	n/m	1.3x	0.8x	n/m	n/m

- Gross profit was behind budget for Q2 2025 (£0.8m) due to lower consultancy fees and one-off revenues than budgeted.
- Exceptional costs largely related to one-off professional fees incurred in the period.
- Net debt was ahead of budgeted levels, primarily due to the collection of both HSE bi-annual payments in June 2025. The Group has begun negotiations with the HSE on the new SLA agreement for 2026 onwards.

Business Overview

- Athera Healthcare Group Ltd ("Athera Group") is the holding company for Aliter's investments into the Healthcare Analytics sector. The Group has completed three acquisitions since inception:
- Net Solving Ltd ("Net Solving"), which provides web-based data collection systems for clinical audits, patient registries and quality improvement programmes. Net Solving typically works with Royal Colleges, academic institutions and charities; and
- Fingerprint Global Ltd ("Fingerprint"), a provider of specialist audit and lifecycle tracking 'Track & Trace' solutions related to the sterilisation and decontamination of surgical instruments within clinical environments. The customers are mainly NHS Trusts and hospital sites in the UK and the HSE in Ireland.
- Newgate Technology Limited ("Newgate"), a provider of both software and hardware services to the healthcare industry, particularly theatre systems and sterile services track and trac solutions.

Value Creation

- Integrate and professionalise 3-4 highly correlated assets into a single platform with a deep service offering focused on clinical audit, patient feedback and patient outcomes.
- Accelerate organic growth through increased business development resource spend across platform, seeking cross-selling opportunities where possible.
- Embed best-in-class systems, processes to support scalability and professionalise.
- Create single unified brand with universal recognition across customers, policy makers and M&A community.

Investment Update

- Adjusted EBITDA during the period was slightly behind budget. This was primarily driven by reduced consultancy work for Insights, as well as reduced one-off hardware revenue in Newgate, the cost base of these business units have been managed accordingly as a result of this. Fingerprint continues to track to budget and as noted below has significant opportunities in the pipeline.
- The implementation of the product roadmap has been delayed to Q1 2026, to align with the expected HSE Senior Licence Agreement (SLA) extension which is expected later in the year.
- The Group has begun the process of consolidating financial and operating systems across the entities, with this work expected to be complete by H2 2025.

Outlook

- The Group have a number of organic opportunities (particularly in Ireland) and several key strategic and integration initiatives are in the process of being implemented, or completed, across the business with a view to readying for a potential exit within 18-24 months.
- The Group won its first Irish Private Hospital (Bon Secours Limerick), with work due to begin in H2 2025 and other private hospitals are in the pipeline for later int the year.

BBS Group

Sector: Legal Services

(all amounts are in GBP '000s unless otherwise stated)

Initial Investment Date:	29 October 2024
Investment Type:	Common Equity, Deferred Consideration
Fund Ownership Interest:	72.72%
Invested Capital	£7,882
Total Committed Capital	£12,360
Headquarters:	Manchester, UK
Gross Investment Multiple:	1.0x
Gross IRR:	-
Current Valuation:	£12,360
Status:	Unrealised
Realised Proceeds:	-
Unrealised Proceeds:	£12,360

Financial and Operational Update

£'000	(Entry) 29 Oct 2024	(Reported) 31 Dec 2024	LTM 30 Jun 2025	Q2 2025 (Actual)	Q2 2025 (Budget)
Revenue	9,803	11,254	11,715	2,810	2,768
Gross Profit	6,533	7,498	6,526	1,492	1,437
EBITDA	3,753	4,678	4,366	796	750
Adjusted EBITDA	4,010	4,473	4,414	988	750

Gross Financial Debt	(11,029)	(11,029)	(10,240)	(10,240)	(10,000)
Net Cash/(Debt)	(10,012)	(7,721)	(7,335)	(7,335)	(7,649)
Net Leverage	2.7x	1.7x	1.7x	n/m	n/m

- Revenue and EBITDA are ahead of budget, with Management confident of maintaining the momentum from a strong financial year performance for FY25.
- Net debt of (£7,095k) at 30-Jun-25, is ahead of budget, and the Group's cash position of £2.9m ensures there is more than sufficient cash to fund working capital.

Business Overview

- Defender TopCo Limited (BBS Group), incorporated in October 2024, is the holding company for Aliter's investment in the legal services sector.
- Aliter is focused on developing a market leading, differentiated legal services group with a full range of services and client base that is focused on a dynamic customer base, including SMEs, entrepreneurs and HNWs based in key UK regions.
- BBS Law is a commercial law firm with offices in Manchester and London, that offers services including corporate, commercial, property, secured lending, private client, employment and HR, litigation, and family law. It focuses on customers that include SMEs, entrepreneurs and HNW individuals.

Value Creation

- Growth of the platform will be driven through bolt-on acquisitions and organically with the central strategy as follows:
  - Build a strong base of ambitious, high-growth clients with significant annual legal expenditure.
  - Build out a full service offer through M&A. Targeting IP, tax, banking and insolvency.
  - Build a strong UK footprint, through complementary acquisition in the major UK regional hubs (London, Manchester, Birmingham, Bristol, Glasgow and Edinburgh being the key UK entrepreneurial hot spots.
  - Develop a clear and strong brand as the law firm for established, dynamic UK businesses (established firms, not start ups).

Investment Update

- BBS continued to perform well during Q2 2025, with the Group performing ahead of budget at a revenue and EBITDA level.
- Key management appointments continue to be made in Q2, with the aim of having a wider SMT appointed and in seat by Q3 2025 aligning with the completion of Project Canada.
- Heads of terms were signed on an accretive acquisition, due to complete in Q3 (Project Canada). Other bolt-on opportunities are being considered and it is expected at least one further deal will be complete by the end of the calendar year.
- The rebranding exercise of the Group has begun, with an expected brand launch in late 2025 or early 2026.

Outlook

- The Group is performing in line with its budget, and the forecast for 2025 continues to be encouraging. Strong levels of organic opportunities for the business are being seen particularly in the property, corporate and private client teams.
- The search for a senior marketing and HR resources are currently being prioritised for Q3 2025, in advance of additional bolt-on acquisitions being made.
- Strong levels of M&A activity are being observed within the UK legal services market, with interest from both PE and trade, supporting robust future exit options.

Net Cash/(Debt)	(2,346)	(7,394)	(6,944)	(6,944)	(8,452)
Net Leverage	1.4x	1.6x	1.5x	n/m	n/m

*LTM 31-Dec-24 revenue and gross profit has been restated following a post-acquisition review of the Serbus accounting treatment post year-end

- Gross Profit and Adjusted EBITDA was ahead of budget for the quarter, maintaining the momentum from the previous period.
- Exceptional items primarily related to professional fees in relation to strategy advice and the re-branding exercise.
- Good working capital discipline has helped to help generate strong cashflows, as a result net debt is £0.5m lower than budgeted levels.

Business Overview

- Spectre TopCo Limited (Spectre), is the holding company for Aliter's investment into the UK network connectivity and wider IT Managed Services sectors.
- Aliter is focused on development of a market leading Group which has a solution-based, end-to-end offering across UK network infrastructure services, serving both enterprise and public sector clients. The Group has completed two acquisitions since inception:
- ITM which offers solutions and services that supports UK critical network infrastructure. ITM has a blue-chip customer base through strategic partnerships with both private and public sector customers.
- Bates IT ("Bates") delivers a wide range of ICT managed and support services to critical UK ICT infrastructure, with a core focus on customers in the private and public healthcare sector.

Value Creation

- Aliter is focused on developing a group of network infrastructure businesses, with a diversified blue-chip customer base.
- Growth of the platform will be driven organically and through acquisitions with the central strategy as follows:
  - Assemble a SMT to support an expansionary buy and build strategy;
  - Develop a platform with a broad service offering, improving sales capability, marketing, and systems;
  - Grow from a regional network infrastructure provider to a UK wide smart integrated solutions provider; and
  - Operate across range of sectors and end-markets, with potential expansion into areas such as IoT and equipment roll outs.

Investment Update

- The Group has continued its strong start to the year in Q2, and the Group continues to show a promising outlook for H2 2025. The continued strategic focus on earnings quality within each business unit has helped to boost the performance of the Group.
- The Group has begun the key hires to support the CEO as we look to FY26, with the CRO appointed in this quarter (and starting in July 2025) and the search being kicked off for a CFO (with an appointment being targeted in Q3 2025).
- Further potential bolt-on opportunities are in the process of being identified and are being reviewed by Aliter, third party advisers and the management team, with particular focus on acquisitions which will complement the strategic critical network infrastructure capabilities established by the Group, or establish new adjacent sectors the Group would like to operate in.

Outlook

- Gross margins continue to improve with the increased governance and controls. Integrated processes have been adopted across the Group in each of the business units. The delivery organisation restructure is now largely complete.
- Management are currently in the process of implementing and scoping new systems, with an integrated topology (starting with Finance and HR) across the Group targeted by Q1 2026.
- The Group re-branding exercise is ongoing and customers and employees are currently being engaged with a new brand launch expected later in 2025.

TXP

Sector: Technology

(all amounts are in GBP '000s unless otherwise stated)

Net Leverage	(0.4x)	1.8x	1.5x	n/m	n/m

*Adjusted EBITDA margin is calculated as a percentage of net fee income

- The Group was behind budgeted revenue but ahead for gross profit and Adjusted EBITDA in Q2 2025. This was driven by the performance of the Technology division, resourcing was behind budget for the quarter but had their strongest monthly performance of the year in June.
- Net debt of £5.7m as at 30 June 2025, includes gross financial debt of £9.5m (additional debt of £1.5m utilised on the Metatech acquisition) and a strong cash balance of £4.8m.

txp Technology X People

Business Overview

- Vesper HoldCo Limited (Vesper), incorporated in July 2022, is the holding company for Aliter's investments into the digital transformation solutions and resourcing services sector.
- The strategy is to build a leading UK tech talent and digital solutions group, with selective international coverage and a diversified blue-chip customer base.
- Vesper has completed three transactions: (i) Concept Resourcing ("Concept"), acquired in July 2022; (ii) Jumar Holdings Limited ("Jumar"), in September 2023, both of which provide technology staffing solutions and digital transformation project delivery services to a blue chip customer base; and iii) Metatech Solutions Limited ("Metatech") in April 2025, a specialised software company focused on Gen migration and legacy modernisation services.

Value Creation

- Aliter is focused on developing a consulting, development and resourcing provider, supporting a SME customer base on their technology challenges.
- Growth of the platform will be driven organically and through acquisitions with the central strategy as follows:
  - Develop a platform with a broad service offering across consulting, development and resourcing solutions;
  - Invest in building strong leadership and organisational capabilities to improve sales capability, marketing, and back-office systems to support future growth; and
  - Be known as a legacy modernisation expert, with solutions and services that are tailored to support both private and public sector clients with their technology challenges.

Investment Update

- The Group completed the acquisition of Metatech in Q2 2025, further strengthening our legacy modernisation and tech services offering.
- The quarterly performance was ahead of budget at an EBITDA level, with a particularly strong divisional performance for the Technology Development team.
- The TXP brand was launched in May 2025, with the announcement of the Metatech acquisition following this. The brand has been positively received by all stakeholders and has helped to simplify the value proposition to the market.
- The Metatech 100 Day Plan is largely complete, with systems and people integrated into the wider Group. Final items are due to be complete in Q3 2025 prior to the next acquisition.

Outlook

- With the acquisition of Metatech, the CA Gen portfolio has several large opportunities in the pipeline which would help to support the growth expected in the H2 forecast. The Group continues to also see opportunities for growth with the large channel partners such as Capgemini.
- Management has narrowed down the list of potential bolt-on opportunities to align to the strategic plan, with targets primarily having strategically enhancing capabilities of AWS or data solutions which would complement the existing Group offerings.
- The Group is in negotiations and expect to sign heads of terms with an AWS provider in Q3, which would be extremely strategically additive to the Group's value proposition.

Unaudited Notes to the Financial Statements

For the period from 1 January 2025 to 30 June 2025

1. Aliter Capital II LP (the "Fund")

The Fund is an English Limited Partnership as constituted by its Amended and Restated Deed of Limited Partnership (the "LPA") dated 11 February 2022, as amended and restated on 14 July 2023 and was registered as such on 12 January 2022.

The Fund held its first close on 11 February 2022 (the "**Initial Closing**") with a Commitment of £56,000,000, subsequent commitments in quarter two and quarter three of 2022 amounting to £77,640,000, bring the total Commitment of the Fund to £133,640,000. Any capitalised terms that are not defined in the Financial Statements are defined in the LPA.

2. Accounting Policies

These Financial Statements have been prepared under the historical cost convention (as modified by the revaluation of certain investments) and in accordance with the LPA. The audited financial statements, prepared in accordance with FRS 102, are made available to each Limited Partner within 90 days of 31 December (the "**Fiscal Year**").

The following are the material accounting policies which have been applied consistently throughout the period:

(a) Investments

Investments are stated at fair value as determined quarterly by Aliter Capital LLP (the "**Manager**") in accordance with International Private Equity and Venture Capital Valuation (IPEV) Guidelines, endorsed by the British Venture Capital Association.

In accordance with FRS 102, unrealised gains and losses arising on the revaluation of investments (including exchange gains and losses on unrealised investments denominated in a foreign currency) will be recognised in the Statement of Comprehensive Income.

Realised gains or losses on the disposal of investments shall be accounted for in the Statement of Comprehensive Income for the period in which the disposal occurs as the difference between the net sale proceeds and the net carrying amount.

Investment Proceeds from any Investment shall be apportioned initially to the Partners in proportion to their Sharing Percentages with respect to the applicable Investment, in accordance with section 7.1 of the LPA.

(b) Foreign currency transactions

The functional and reporting currency of the Fund is Pound Sterling. Investments are translated into the reporting currency at the date of the transaction. Foreign currency debtors and creditors are translated into the reporting currency at the rate of exchange at the Statement of Financial Position date. Transactions in foreign currencies have been translated at the rate of exchange ruling at the date of the transaction. Foreign exchange gains and losses, aside from those described above, are included in the Statement of Comprehensive Income.

(c) Income and expenditure recognition

Current income, which includes all interest, dividend and other income from securities held by the Fund in respect of its investment activities will be distributed within 90 days after receipt by the Partnership. Dividend income is accounted for on a receipts basis, net of irrecoverable tax credits and gross of applicable withholding tax. Cash interest income received from investments is accounted for on an accruals basis, gross of any applicable withholding tax. Interest income receivable from other investments is accounted for on a receipts basis; any accruals are dealt with in the revaluation of these investments.

Shareholder loan stock held by the Fund in private equity unlisted investments bears interest, but is typically subordinated to the secured bank lenders of the relevant investment. Income may only be received by the Fund if approved by such bank lenders and when certain conditions related to trading performance and/or banking covenants have been met, and therefore may be considered to be quasiequity in nature. Accordingly, the income on these instruments is recognised on a receipts basis.

Investment income is stated net of any provisions considered appropriate by the Manager, and will be distributed in accordance with sections 7.1 and 7.2 of the LPA.

In general, deal expenses incurred in relation to the acquisition of an investment are accounted for as an expense in the Statement of Comprehensive Income. Transfer costs together with any irrecoverable VAT and any stamp duty or taxes related to such acquisition are accounted for as a cost of investment and capitalised. Broken deal costs incurred in connection with proposed transactions which do not proceed to completion are accounted for as expenses once an obligation to pay these costs has arisen.

Unaudited Notes to the Financial Statements

For the period from 1 January 2025 to 30 June 2025 (continued)

2. Accounting Policies (continued)

Other income and expenses are accounted for on an accruals basis.

(d) Going Concern

These Financial Statements of the Fund have been prepared on a going concern basis.

(e) Subsidiary and associate undertakings

The Financial Statements do not consolidate controlling interests in underlying investments.

(f) Taxation

No provision for income taxes is included in the accompanying Financial Statements since all income and losses are allocated to the Partners for inclusion in their respective tax returns.

(g) Contingent Assets

Contingent assets are disclosed where an inflow of economic benefits is probable.

3. General Partner's Share ("GPS")

The detailed provisions related to the GPS can be found in Section 7 of the LPA. In summary, the GPS shall be payable quarterly in advance commencing on the Initial Closing and on each January 1, April 1, July 1 and December 1 thereafter, and in respect of each quarterly period shall be an amount equal to 25% of:

(i) through the earlier of (x) the last day of the Investment Period or (y) the date on which a Successor Pooled Investment Vehicle starts allocating a general partner's share or paying a management fee to the General Partner, the Principals or any of their respective Affiliates, 2.00% per annum of the Total Amount of Commitments; and

(ii) Thereafter, 2.00% per annum of the Acquisition Cost of each Portfolio Investment (excluding, for the sake of clarity, the portion of the Acquisition Cost of Portfolio Investments that (x) has been written off or permanently written down by the General Partner or (y) was financed using borrowing by the Partnership and subsequently refinanced other than with the use of Loan Contributions), reduced by the aggregate amount of Acquisition Cost of Portfolio Investments that have been distributed in kind or which have been redeemed or the subject of a realisation (or the relevant proportion of the Acquisition Costs in respect of any Investments that have been the subject of a partial realisation) and the proceeds of which have been distributed to the Partnership.

Since inception, Partners have incurred £9,050,398 of GPS.

If there is insufficient Distributable Cash as of any Quarter Date to distribute the whole of the General Partner's Share, any deficiency shall be paid to the General Partner by way of an interest free loan.

4. Carried Interest

The detailed provisions relating to distributions made to the Carried Interest Partner can be found in section 7.1 of the LPA.

The Carried Interest Partner is Aliter Capital Carry LP (the "**Founder Partner**"). The Founder Partner is only entitled to Carried Interest after the Limited Partners' Commitments drawn down have been repaid together with the Preferred Return due. The Preferred Return is 8% per annum compounded annually on the Commitments drawn down, accruing from the date on which each Commitment was drawn down until repaid.

As at 30 June 2025, no Carried Interest was accrued.

Unaudited Notes to the Financial Statements

For the period from 1 January 2025 to 30 June 2025 (continued)

5. Summary of Total Commitments Called

Commitment	30 Jun 25 £	31 Dec 24 £

Disclaimer

This Report has been prepared by AssetMetrix GmbH based in Munich, Germany (**AssetMetrix**) for Aliter (**Client**). It may contain confidential and legally protected data and information. Therefore, this report and its content are to be treated as strictly confidential.

This report and its content are destined only for the purpose of informing the intended recipient. It may not be reproduced or provided beyond this purpose. Furthermore, the report may not be altered or modified without the prior written consent of AssetMetrix.

AssetMetrix has prepared this report based on data and information, which have been provided by the client, derived from public sources, or obtained from specialized data providers. AssetMetrix reviews this data and information and aims to improve their quality by performing plausibility checks. However, AssetMetrix also reserves the right to use them without proper examination. Consequently, AssetMetrix does not assume any liability whatsoever for the completeness and accuracy of the data and information contained in this report; the same applies for the client.

AssetMetrix has prepared this report also by using specifically developed mathematical, analytical, and statistical models. AssetMetrix does not assume any liability whatsoever for the completeness and accuracy of these models.

Neither AssetMetrix nor the client shall be liable for any losses, damages, or consequential damages arising in connection with the recipient making decisions based on the information and data included herein. The recipient may not rely on any of the data and information included in this report and shall not claim any such reliance. This report and any information contained herein do not constitute investment, legal, business, or tax advice of any kind and may not be construed as any legally binding instrument or basis for any reliance.

Finally, this report may contain forecasts, plans, and forward-looking statements. Those forecasts, plans, and forward-looking statements are based on the knowledge and information available at the time that this report was prepared. As is true of all forward-looking statements, these statements are subject to risk and uncertainty. As a result, the actual events may deviate significantly from these expectations. Neither AssetMetrix nor the client assume any liability whatsoever for the accuracy or completeness of projections or for the achievement of planned targets or for any other forward-looking statements.
