Q1 2025

Motive Capital Fund 1

Disclaimers

The information contained in this letter (this "Letter") is provided for informational and discussion purposes only and is not, and may not be relied on in any manner as legal, tax or investment advice or as an offer to sell, or a solicitation of an offer to buy, any securities in any investment vehicle managed by Motive (as defined below). Any such offer will only be made pursuant to the offering documents of any such investment vehicle.

The information contained herein must be kept strictly confidential and may not be reproduced or redistributed to any person in any format without the approval of Motive Capital Management, LLC ("MCM" and together with its affiliates, "Motive" or "Motive Partners"). As a condition to receiving this Letter, each recipient hereof is deemed to have agreed (i) not to reproduce or distribute the information contained herein, in whole or in part, except to any employee, agent or representative directly concerned with the recipient's relationship with Motive, who agrees to be bound by this paragraph, (ii) to return this Letter to Motive or destroy it promptly upon request and (iii) to be responsible for any disclosure of this Letter, by such person or any of its employees, agents or representatives. In addition, each person who has accessed, or received a copy of, this Letter (or any part thereof) is deemed to have (i) made a representation to Motive that the recipient is not subject to the U.S. Freedom of Information Act ("FOIA") or any similar public information law/regulation requiring disclosure of this Letter and (ii) agreed with Motive that it will fully cooperate in the event that this Letter does become subject to FOIA (or similar legislation) to preserve the confidentiality of the information contained herein to the maximum extent permitted under applicable law.

This Letter contains references to "Industry Partners", and the experience of several Industry Partners is highlighted prevalently herein. Industry Partners serve as independent consultants to Motive and may provide assistance developing new investment opportunities, assisting with commercial due diligence related to investment opportunities, and providing additional consulting services. Industry Partners are not full-time Motive employees and are not part of the management team charged with making investment decisions on behalf of Motive. Any compensation paid to Industry Partners will not reduce or offset any management fees payable by any fund advised by Motive. Please see page 37 for important disclosures regarding the amount of compensation paid to Industry Partners.

This Letter contains references to "Motive Create", which is an affiliate of Motive that retains employees and consultants to provide specialized operational, advisory, technology, development and technical support services and similar or related specialized services to Motive Create's clients (which may include funds advised by Motive and certain portfolio companies of funds advised by Motive ("Affiliated Clients")). For any Affiliated Clients which so contract with Motive Create, Motive Create will be entitled to fees for its services that are separate and apart from the management fee and carried interest to any funds advised by Motive, and will not reduce any management fees payable by any fund advised by Motive. Such fees will be charged in accordance with the relevant governing documents of Motive Capital Fund I ("MCF1") and will generally be at rates not in excess of rates for which substantially equivalent services could have been obtained from an unaffiliated third party. If the affiliation between Motive Create and Motive is terminated (through the sale, transfer or dissolution of Motive Create or otherwise), MCF1 and MCF2 will no longer benefit from the competitive advantage (if any) provided by Motive Create and any services provided to any Affiliated Clients by Motive Create may need to be provided instead by third parties, potentially at an increased cost to such Affiliated Clients. In addition, there can be no assurance that any individual professional retained by Motive Create will continue to be affiliated with Motive Create throughout the term of MCF1 or that replacements, if any, will perform well. The ability to recruit, retain and motivate such professionals is dependent on the ability of Motive Create to offer attractive incentive opportunities. The loss of the services of one or more professionals retained by Motive Create could have a material adverse effect on MCF1.

Any projected return information referenced in this Letter (the "Return Information") is based on (i) either publicly available information or (ii) Motive's belief about the returns that may be achievable on investments made or to be made by MCF1 in light of the team's experience with similar investments historically, its view of the current market conditions, availability of financing and certain assumptions about investing conditions and market fluctuation or recovery, in each case, as of the date of preparation of this Letter and not as of any future date. There is no guarantee that the facts on which such assumptions are based will materialize as anticipated and will be applicable to MCF1's investments or that the returns shown in the Return Information will be achieved. Neither Motive nor any of its representatives has made or makes any representation to any recipient hereof regarding the Return Information and none of them intends to update or otherwise revise the Return Information, even in the event that any or all of the assumptions underlying the Return Information are later shown to be incorrect.

Certain information contained in this Letter constitutes "forward-looking statements," which can be identified by the use of forward-looking terminology such as "may," "will," "should," "expect," "anticipate," "target," "project," "estimate," "intend," "continue" or "believe," or the negatives thereof or other variations thereon or comparable terminology. Due to various risks and uncertainties, actual events or results or the actual performance of MCF1 may differ materially from those reflected or contemplated in such forward-looking statements.

Past performance is not indicative of future results.

June 26, 2025

Dear Limited Partners,

I am pleased to provide you with an update on Motive Capital Fund 1 (“MCF1” or the “Fund”) for the quarter ending March 31, 2025. This letter will cover recent market trends and fund performance during the quarter as well as material events that occurred post-year end.

MARKET UPDATE

Unpredictable geopolitical landscape fueling continued market uncertainty

Markets entered 2025 on stable footing, buoyed by moderating inflation and steady labor market strength. However, that confidence quickly gave way to renewed uncertainty as geopolitical tensions disrupted the global outlook. In April, President Trump introduced sweeping tariff increases which triggered a 15% correction in the S&P 500 and elevated the VIX above 50, a level associated with acute market stress. [1,2] For comparison, the index’s long-term average sits at below 20, and rises above 30 are associated with extreme market volatility. [3]

While the initial market reaction was severe, equities have since partially rebounded as trade rhetoric softened and central banks signaled support. In May, the U.S. and China agreed to a 90-day tariff truce, scaling back duties on key imports, where the U.S. cut tariffs on Chinese goods from 145% to 30%, while China reduced rates from 125% to 10%.[3] Despite this reprieve, the U.S. effective tariff rate remains elevated at 13% in May 2025, up from approximately 2.5% earlier in the year. [4,5]

S&P 500 PERFORMANCE VS VIX VOLATILITY[1]

2 Source: Cboe data, as of May 2025.
3 Source: FT, Trump tracker: US markets and economy, May 2025.
4 Source: FT, The Trump tariff crisis is not over yet, April 2025.
5 Source: Fitch Ratings, US Effective Tariff Rate Declines to 13% from 23% with Lower China Duty, May 2025.

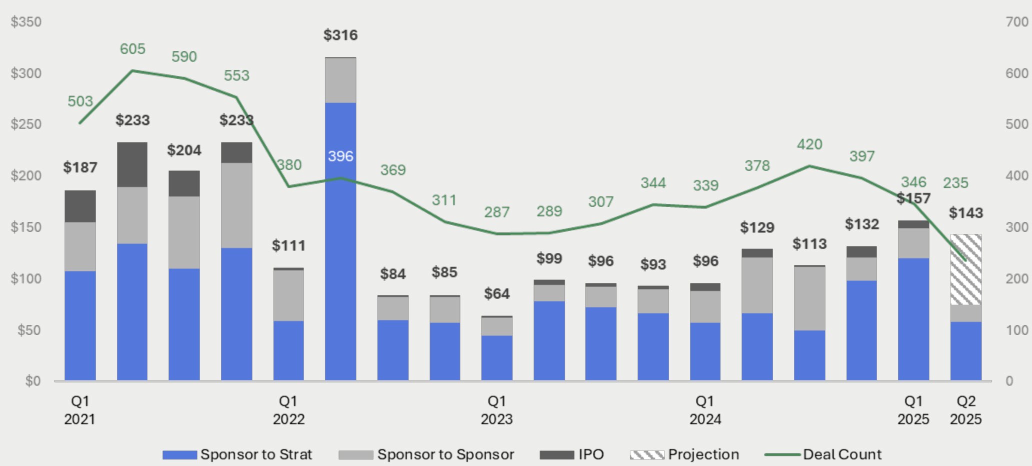
In response, central banks have adopted divergent approaches. While the Federal Reserve held rates steady at 4.25-4.50%, the Bank of England and European Central Bank each cut rates by 25 basis points to 4.25% and 2.25%, respectively.[6,7] Both cited softening growth and rising uncertainty, with further easing likely if conditions deteriorate.

Sluggish exit environment limiting distributions to LPs

The volatility in public markets continues to weigh on IPO activity, particularly among fintech issuers. In Q1, Klarna, Chime, and eToro postponed listing plans due to valuation pressure.[8] Encouragingly however, eToro resumed and completed its IPO in May (NASDAQ:ETOR),[9] while Chime listed in June (NASDAQ:CHYM).[10] These transactions suggest green shoots may be emerging, but the broader picture remains fragile.

More broadly, after Q1 2025 showed a promising resurgence in buyout-backed exit activity, with global exit values rising to $157B – the strongest quarterly total in over a year – momentum is expected to fade quickly, with a projected drop to $143B in Q2.[11] Exit volume and deal count remain below trend, constrained by tighter financing markets and valuation mismatches.

GLOBAL BUYOUT-BACKED EXIT VALUE ($B)[1]



1. Source: Dealogic; Bain analysis, June 2025. Includes partial and full exits; excludes special-purpose acquisition companies and bankruptcies; IPO value represents offer amount and not market value of company; data as of May 19, 2025; exit count is scaled to quarterly basis.

As a result, distributions to investors continue to be low, and fall short of historical benchmarks. For instance, PE funds of 2018 vintage across the U.S. and Western Europe are delivering DPI of just above 0.6x, lagging behind a historical median of 0.8x for similar age funds. [12]

US AND WESTERN EUROPE MEDIAN BUYOUT DPI, BY VINTAGE YEAR[1]

PORTFOLIO UPDATE

Attractive business models, conservative LTVs and structural protections provide for portfolio resilience

One thing is clear to us: across a multi-year period packed with exogenous shocks, all-time highs, large market sell-offs, inefficient capital markets, geopolitical tensions, and general uncertainty, there is only one thing we can predict for the next few years – further uncertainty. With that in mind, we are pleased to maintain a robust portfolio of under-levered, structurally protected investments. Across MCF1, the average proportion of revenues denoted as recurring or re-occurring is 71%. [13] In addition, none of the portfolio companies are expected to have covenant or maturity issues.

12 Source: Bain, Leaning Into the Turbulence: Private Equity Midyear Report 2025, June 2025.

1. Weighted average by total invested cost across MCF1 and LTM revenue across the portfolio, as of March 31, 2025.
2. Weighted average by total invested cost across MCF1, as of March 31, 2025.

In response to the possible risks of tariffs, we conducted an analysis of our portfolio from which we expect that MCF1 companies are overall insulated, or in some instances may even benefit from an escalating tariff situation and associated volatility.

HOW ARE THE COMPANIES IMPACTED BY TARIFF RISK?

		INSURIFY	investcloud	lpa_	Wilshire	Forge
Direct impacts	Revenue	Neutral	Neutral	Neutral	Neutral	Publicly listed (refer to public disclosures)
	Operating costs	Neutral	Neutral	Neutral	Neutral

	Supplier impacts	Neutral	Neutral	Neutral	Neutral	
Mitigation strategy in place		**Yes**	**Not required**	**Yes**	**Not required**	-

Note: Reflects the subjective views of Motive Partners as of April 2025.

With this robust portfolio, we have deployed a range of value creation initiatives across three key areas: organic growth, inorganic expansion, and margin improvement. Additionally, we see data and AI efforts as avenues to unlock efficiency and scalability, and believe they are emerging as distinct levers for value creation in private equity. Adoption is accelerating across the industry, with a recent survey indicating that nearly 20% of portfolio companies are already realizing tangible benefits from generative AI applications. [14]

A summary of recent and ongoing value creation initiatives from across the portfolio are outlined below:

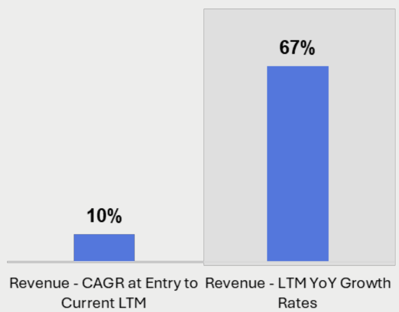
- **Forge Global:** Forge is creating value by expanding data partnerships and commercial reach. Collaborations with Yahoo Finance and ICE are extending its private company pricing data offering, while product launches like Net Auction and RFQ automation tools are intended to improve trading execution. These moves support its path toward EBITDA breakeven in 2026.
- **Insurify:** Rapid organic growth, with a 658% year-over-year revenue increase, has been driven by referral revenue and strong performance across paid marketing and partnerships. The launch of a GenAI-powered sales agent, expansion into home and short-term auto insurance, and improved monetization efficiency are positioning the business to diversify and scale profitably.
- **InvestCloud:** InvestCloud is executing on a transformation strategy focused on modular product design, cost efficiency, and AI-enabled advisor tools. The PMA Network and SmartAX/CX are expected to drive new revenue streams, while a streamlined commercial process and APL enhancements are improving time-to-value and expanding the addressable market.
- **LPA:** Value is being created through recent acquisitions, including DDS and the remaining stake in Zertifikatefabrik, which are expected to expand the product suite and enable cross-sell. Project Shift is gaining traction with new wins in Canada and the U.S., supporting organic growth. Meanwhile, continued investment in automation and offshore development is improving scalability and positioning the business for margin expansion.
- **Wilshire:** Wilshire is executing a hybrid value creation strategy focused on organic growth in retirement and alternatives, alongside M&A such as the XTP and Lyxor acquisitions. Integration of acquired platforms is underway, and commercial teams are focused on cross-sell, productization, and delivering cost savings across the core institutional business.

---

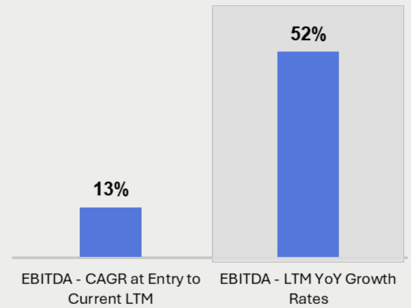
14 Source: Bain, Global Private Equity Report, April 2025.

As a result of Motive's hands-on efforts, the MCF1 portfolio continued to deliver attractive financial performance. Since entry, the MCF1 portfolio has delivered 10% and 13% revenue and EBITDA CAGRs despite a difficult market.[15] In the past 12 months, revenue and EBITDA increased by 67% and 52%, respectively, year-over-year, which represented the beginning of an acceleration that we believe will continue throughout 2025 as additional value creation initiatives are realized.[16]

REVENUE - CAGR SINCE ENTRY & YEAR OVER YEAR GROWTH[1,2]



EBITDA - CAGR SINCE ENTRY & YEAR OVER YEAR GROWTH[1,2]



Note: "Current" refers to March 31, 2025. Weighted averages across unrealized portfolio calculated based on invested cost weighting across MCF1. Past performance is not indicative of future results, and projections regarding unrealized values cannot be guaranteed. CAGRs are weighted averages calculated by the invested cost by portfolio company across MCF1, as of March 31, 2025. There can be no assurance that accelerated growth will ultimately occur.

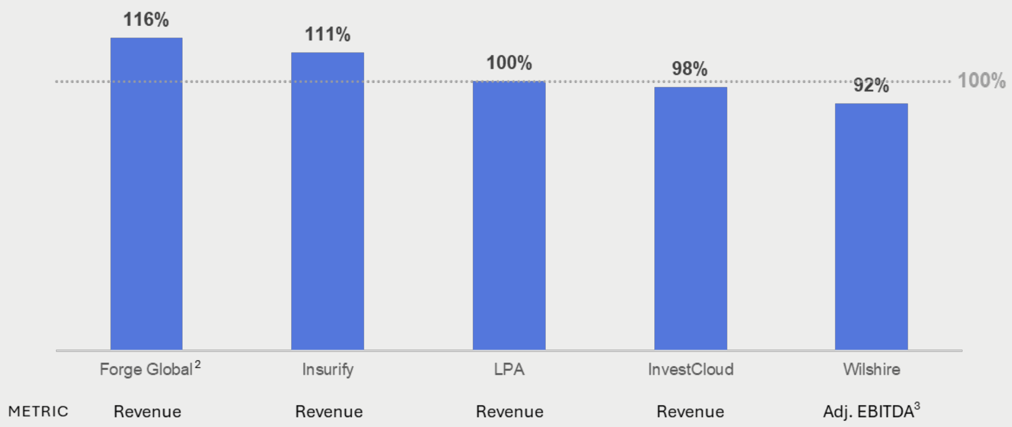
1. Revenue CAGRs are weighted averages calculated by the invested cost of the unrealized portfolio comprises Forge Global, Insurify. InvestCloud, LPA, and Wilshire. EBITDA CAGRs are weighted averages calculated by the invested cost of the unrealized EBITDA-valued company: Wilshire.
2. Excludes portfolio companies held less than one year as of March 31, 2025.

15 Weighted average based on invested capital.

16 There can be no assurance such revenue or EBITDA growth will ultimately be achieved.

To further demonstrate this, all of MCF1's unrealized portfolio companies performed generally in line or above budget year-to-date in 2025, as illustrated below.

Q1 2025 ACTUALS AS A % OF BUDGET[1]

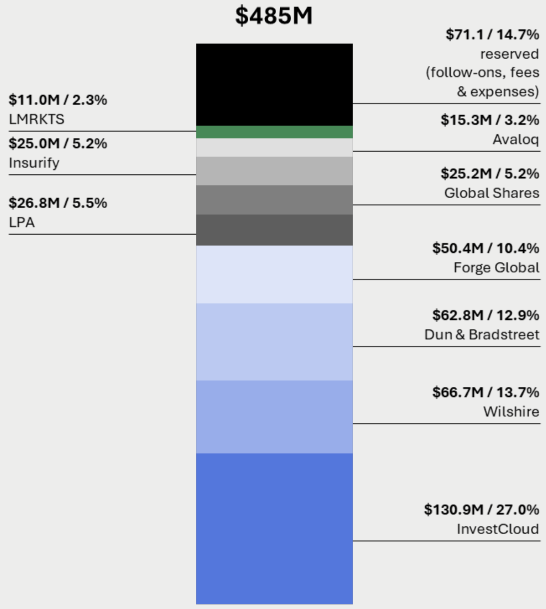


1. Based on valuation metrics for each company as of March 31, 2025, except for InvestCloud, which reports as of January 31, 2025, due to a differing fiscal year-end date.
2. Forge Global's budgeted revenue is not publicly-available. In this analysis, YTD March 31, 2025 actual revenue is compared against public markets analyst consensus estimates prior to Q4 2024 earnings.
3. Adjusted EBITDA defined as EBITDA adjusting for one-offs and exceptional items.

MCF1 portfolio continuing to perform well

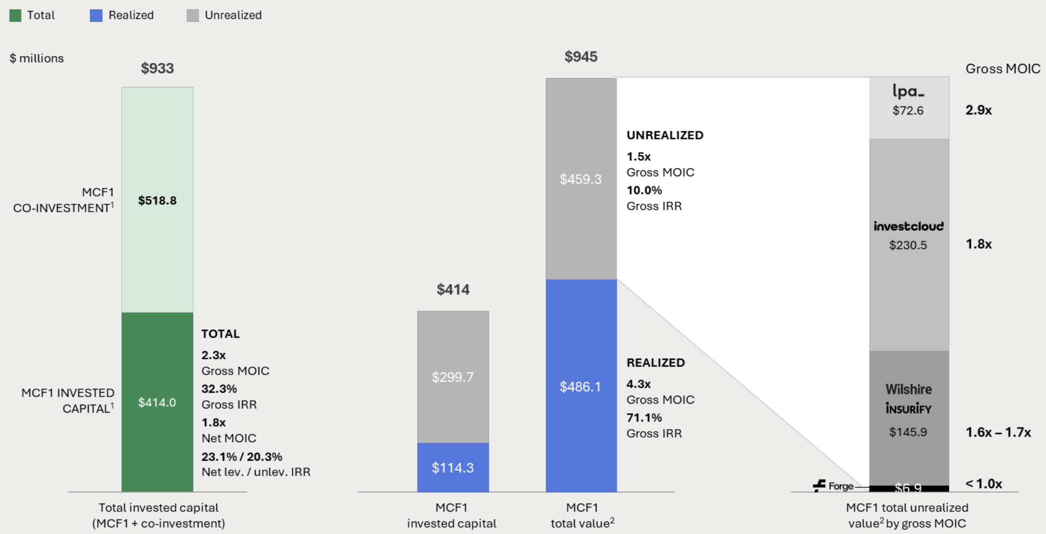
As of March 31, 2025, MCF1 was fully committed across 9 portfolio companies.

MCF1 is marked at a 2.3x Gross MOIC / 1.8x Net MOIC as of the end of Q1 2025. 83% of MCF1 invested capital is held at or above a 1.0x Gross MOIC.



Note: As of March 31, 2025. The chart above does not reflect capital which may become available for recycling upon a distribution.

17 Please refer to the Detailed Track Record of MCF1, including the notes set forth therein, for a detailed discussion of investment performance. Please see the Performance Endnotes for important information. Except as otherwise disclosed herein, the Net Unlevered MOIC is equal to the Net Levered MOIC for a portfolio company or vehicle, as applicable.



Note: All graphics and amounts are as of March 31, 2025, unless otherwise stated, and are reflective of the MCF1 portfolio. Except as otherwise disclosed herein, the Net Unlevered MOIC is equal to the Net Levered MOIC for a portfolio company or vehicle, as applicable.

1. Represents (i) co-investment capital invested through Motive-managed co-investment vehicles that invested alongside MCF1, comprising the sum of capital invested from co-investment vehicles in Dun & Bradstreet, Finantix, LPA, LMRKTS, Tegra118 in addition to 50% of the aggregate Motive-controlled co-investments (across MCF1 and MCF2) in Wilshire, as of March 31, 2025 (totaling $326M), and (ii) co-investment capital attributable to third-party co-investors and syndicate members that invested directly in a co-investment opportunity in which a Motive-managed co-investment vehicle that invested alongside MCF1 also invested and with respect to which Motive (1) identified, sourced or presented such opportunity to such third parties, and/or (2) enabled such third parties to invest in such opportunity, whether through the provision of relevant industry expertise, technical support or otherwise (comprising $193M). Co-investment opportunities cannot be guaranteed.
2. Value is based on unaudited estimates as of March 31, 2025. Value creation includes unrealized values and is not necessarily indicative of investor returns. Please see Note 7 in the Performance Endnotes for important information.

VALUATIONS FROM THE QUARTER [18]

Insurify

Insurify was marked up to a 1.7x Gross MOIC in Q1 2025, from 1.6x in Q4 2024, reflective of a significant business transformation and surge in performance since early 2024, highlighted by rebounding referral revenue and EBITDA, as well as cash flow profitability.

LPA

LPA was marked up to a 2.9x Gross MOIC in Q1 2025, from 2.7x in Q4 2024, driven by growth in the software business, favorable EUR/USD FX movements, and debt paydown in the quarter.

Other portfolio companies

Forge Global, InvestCloud, and Wilshire were carried at the same mark quarter-over-quarter.

18 Based on the subjective views of Motive as of Q1 2025. Please refer to the Detailed Track Record of MCF1, including the notes set forth therein, for a detailed discussion of investment performance. Please see the Performance Endnotes for important information. Except as otherwise disclosed herein, the Net Unlevered MOIC is equal to the Net Levered MOIC for a portfolio company or vehicle, as applicable.

FIRM UPDATE

In April 2025, Sreeram Visvanathan joined Motive Partners as a Partner, Head of Motive Create, following a 23-year career at IBM, most recently serving as CEO for IBM UK & Ireland, where he led a successful turnaround of the business, delivering sustained growth.

In addition, in June 2025, Oded Cedar joined Motive Partners as the Chief Compliance Officer. Previously, he was the Chief Compliance Officer and Counsel for Fifth Wall Ventures, and prior to that held the role of Chief Compliance Officer for SBLA Advisors, a division of SoftBank.

CLOSING

As always, we would like to thank you for your continued support and partnership. If you have any questions or would like to discuss the abovementioned points in more detail, please do not hesitate to reach out to me and the team at ir@motivepartners.com.

Sincerely,

Bob Brown
Founding Partner

Motive Capital Fund 1 performance

DETAILED TRACK RECORD: MCF1 PORTFOLIO INVESTMENTS HELD AS OF MARCH 31, 2025 [19]

Investment performance, including return information, is presented herein as of March 31, 2025, based on Motive's good faith estimates.

($ millions)	Inv. year	MCF1 cost [A]	Realized value	Unrealized value	Total value	Gross IRR	Gross MOIC
Realized							
LMRKTS [B]	2016 / 2018	$11.0	$8.3	-	$8.3	(8.7%)	0.8x
Avaloq [C]	2017 / 2018	$15.3	$44.0	-	$44.0	54.6%	2.9x
Dun & Bradstreet	2019	$62.8	$192.9	-	$192.9	77.8%	3.1x
Global Shares	2018	$25.2	$240.9	-	$240.9	88.4%	9.6x

Sub-total – SPAC		**$50.4**	**$0.0**	**$4.2**	**$4.2**	**(55.3%)**	**0.1x**
Total		**$414.0**	**$486.1**	**$459.3**	**$945.4**	**32.3%**	**2.3x**
Net lev. IRR / net lev. MOIC						**23.1%**	**1.8x**
Net unlev. IRR / net unlev. MOIC						**20.3%**	**1.8x**
Remaining capital (unallocated capital + expenses)		$71.1					
Total (incl. reserved & remaining capital)		**$485.1**					

19 Information is as of March 31, 2025, unless otherwise stated, and has not been updated to reflect any changes that have occurred since such date. Except as otherwise disclosed herein, the Net Unlevered MOIC is equal to the Net Levered MOIC for a portfolio company or vehicle, as applicable.

Detailed track record notes

Past performance is not indicative of future results and there can be no assurance that any Motive sponsored investment vehicle (each, a "Motive Fund") will achieve comparable results or be able to avoid losses.

MCF1 performance footnotes

The performance information is presented as of March 31, 2025.

A. Includes amounts borrowed under MCF1's subscription-backed credit facility.

B. Motive Partners invested $4.1M and Stephen C. Daffron separately invested $1.9M into LMRKTS. In August 2018, Motive Partners and Mr. Daffron transferred their interests in LMRKTS at cost to MCF1 as a warehoused investment pursuant to the terms of MCF1's partnership agreement. On December 28, 2018, MCF1 acquired $5M in additional shares. LMRKTS closed on an agreement to be acquired by a sizeable strategic buyer, marking MCF1's third exit.

C. Avaloq was held as a warehoused investment by Motive Partners prior to January 11, 2018, at which point it was transferred to MCF1 at cost.

D. MCF1's investment in LPA was structured in the form of a 50% upfront cash consideration and 50% deferred payment based on exceeding certain financial thresholds between 2021-2023. LPA's financial performance allowed the shareholders to achieve €9.8M ($10.5M) of their revenue-based earn-out. Motive provided a €4.8M ($5.1M) bridge loan through MCF1 to fund a portion of this earn-out. This bridge loan has been included in the current MCF1 Investment Cost and is included in the calculation of Gross and Net MOIC and IRR, respectively.

E. The investment in InvestCloud signed and closed in Q1 2021 and encompassed a $100M investment from MCF2 and the contribution of MCF1 portfolio companies Finantix and Tegra118, at a combined value of $160M (based on a 1.4x valuation supported by a fairness analysis provided by Duff & Phelps, LLC), to an integrated Wealth Technology platform that is under the InvestCloud brand. InvestCloud has been reflected here at the original combined cost of Tegra118 and Finantix.

F. The performance information of Forge Global set forth herein is as of March 31, 2025, and reflects an estimated valuation as of such date. Motive values MCF1's investment in Forge Global based on the stock price as of the last day of the valuation period and does not value Forge Global holistically as it is a public company. In 2Q22, Forge announced it would redeem all of the public warrants (including Motive's FPA warrants) on July 11, 2022. 11% of the public warrants outstanding were exercised by Forge Global and generated cash proceeds of approximately $22.9M to the company. Motive's FPA warrants were redeemed in connection with such redemption, which resulted in aggregate proceeds of $46,666.64.

Performance endnotes

1. Information is as of March 31, 2025, unless otherwise stated, and has not been updated to reflect any changes that have occurred since such date. In considering any performance data contained herein, prospective investors should bear in mind that neither past nor projected performance is indicative of future results and there can be no assurance that MCF1 or any other Motive Fund will achieve comparable results or be able to avoid losses.
2. "MOIC" or "multiple on invested capital" represents total realized proceeds from a Motive Fund's portfolio investments to such Motive Fund plus the Unrealized Values (as defined below) of such Motive Fund's investments divided by total contributed capital. MOIC for investments with an Unrealized Value have been calculated by assuming that the remaining interest has been sold at such Unrealized Value as of March 31, 2025, unless otherwise stated. MOICs presented are not indicative of the Motive Funds' future performance and there can be no assurance that future Motive Funds will achieve comparable MOICs.
3. "Gross MOIC" does not take into consideration the impact of any management fees, carried interest or certain fund-level expenses, which in the aggregate are expected to be substantial in the case of the Motive Funds and would reduce the Gross MOIC presented.
4. "IRR" or "internal rate of return" is a measure of the discounted cash flows (inflows and outflows) related to the limited partners' investment in a Motive Fund since inception. IRR calculations take into account the time span during which an investment return is generated, and short time spans between investments and realizations can create outsized IRR results. IRR calculations do not reflect the deduction of taxes and are calculated on the basis of daily investment inflows and outflows. IRR for investments with an Unrealized Value have been calculated by assuming that the remaining interest has been sold at such Unrealized Value as of March 31, 2025, unless stated otherwise. IRR is the discount rate at which (1) the present value of all capital invested in an investment is equal to (2) the present value of all returns from the investment (whether or not realized). IRRs presented are not indicative of the Motive Funds' future performance and there can be no assurance that future Motive Funds will achieve comparable IRRs.
5. "Gross IRR" or "Gross Returns" represents a measure of the investment returns. Gross IRR does not take into consideration the impact of any management fees, carried interest or certain fund-level expenses, which in the aggregate are expected to be substantial in the case of the Motive Funds and would reduce the Gross IRR presented. In addition, Gross IRR is shown on an unlevered basis and uses the original date of investment by a Motive Fund and does not take into account fund-level leverage utilized by such Motive Fund in advance or in lieu of capital contributions. Such fund-level leverage can result in higher calculations of returns since these calculations generally depend on the amount and timing of capital contributions by limited partners. Distributions are included gross of any carried interest using the date which a Motive Fund received the distribution.

6. “Net Levered MOIC” (or “Net Lev. MOIC”), “Net Unlevered MOIC” (or “Net Unlev. IRR”), “Net Levered IRR” (or “Net Lev. IRR”) and “Net Unlevered IRR” (or “Net Unlev. IRR”) take into consideration the impact of all fund-level expenses, including management fees, and carried interest. The fund level Net Levered IRR and fund level Net Unlevered IRR is calculated from the aggregate net cash flows across all LPs in each respective Motive fund. The fund level Net Levered MOIC and Net Levered IRR take into account fund-level leverage utilized by such Motive Fund in advance or in lieu of capital contributions and the fund level Net Unlevered MOIC and Net Unlevered IRR do not take such fund-level leverage into account. Individual LP net IRR and net MOIC performance may differ from the aggregate net performance due to economics and close timing. Distributions are included net of carried interest (where appropriate) where the distribution date is the date which a Motive Fund makes the distribution to the limited partners.
7. “Realized Value” means the amount of sales proceeds actually received by a Motive Fund with respect to an investment as of March 31, 2025, unless stated otherwise. “Unrealized Value” means the value of an unrealized investment or the unrealized portion of a partially realized investment as of March 31, 2025, unless stated otherwise, based on Motive Partners’ good faith estimates, except as otherwise noted herein. The actual realized value of unrealized or partially realized investments will depend on various factors, including future operating results, market conditions at the time of disposition, any related transaction costs and the timing and manner of disposition, all of which may differ materially from the assumptions and circumstances on which Unrealized Value is based. Accordingly, there can be no assurance that unrealized or partially realized investments will be realized at the “Unrealized Value,” including the valuation used to calculate the Gross IRR and Gross MOIC presented or that investors will be able to avoid losses, including a total loss of their investment. “Total Value” means the sum of Realized Value and Unrealized Value.

Forge

Forge

COMPANY OVERVIEW

Founded in 2014, Forge Global Holdings, Inc. ("Forge Global" or "Forge") (NYSE: FRGE) is a provider of marketplace infrastructure, data services and technology solutions for private market participants. Forge Global strives to power an accessible, liquid and transparent private equity marketplace, to serve the increasingly complex needs of the private market ecosystem by forging new connections through technology, data and expertise.

TRANSACTION OVERVIEW

On March 22, 2022, Motive announced that the business combination of Forge Global and Motive Capital Corp, a special purpose acquisition company sponsored by affiliates of Motive Partners (together, the "Combined Company"), had been completed (the "Combination").

The Combination provided ~$216M of gross proceeds to the Combined Company, prior to the payment of transaction expenses, including the contribution of cash raised from the initial public offering of Motive Capital Corp in December 2020, net of redemptions, as well as a Forward Purchase Agreement ("FPA") from Motive Capital Funds Sponsor LLC and PIPE financing.

Investment

- As a recap, Forge completed a 15-for-1 reverse stock split effective April 14, 2025, and regained compliance with the NYSE continued listing criteria for minimum share price

Strategy

- The company remains on track for adjusted EBITDA breakeven by 2026, balancing strategic investments with disciplined cost control
- Forge continues to focus on building out the private markets ecosystem to capitalize on the attractive opportunity and announced partnerships with Yahoo Finance and Intercontinental Exchange (ICE) during the quarter
- In April, Forge announced that it has entered into a non-binding term sheet with Accuidity Capital Management to acquire a 100% interest. This is subject to completion of customary due diligence by Forge and definitive merger agreement between Forge and Accuidity

Commercial

- Quarterly average bid-ask spread during the quarter narrowed slightly to ~9% vs ~10% during the prior year, indicating closer prices being expressed by investors, increasing chances of a matched transaction
- Trading volume in the quarter more than doubled versus the prior quarter reflecting continued momentum of the private markets

Product [20]

- In March, Forge announced a partnership with Yahoo Finance to provide real-time pricing and valuation data for late-stage U.S. private companies before they go public
- In April, Forge and ICE formed a partnership to distribute Forge Price, a proprietary pricing dataset for private company equity

Talent

- Forge's headcount was 306 as of March 2025, broadly flat versus 300 as of December 2024, reflecting the company's continued cost management efforts
- Brian McDonald, former Head of Direct and Institutional Businesses at Morgan Stanely, appointed to the Board of Directors
- Greg Lee, former Managing Director at Paxos, appointed as Head of Forge Trading & Data Platform

Motive Create / Technology

- No material updates in the quarter

Financials [21]

- Revenue: $25.1M in Q1 2025, increasing by 31% compared to Q1 2024

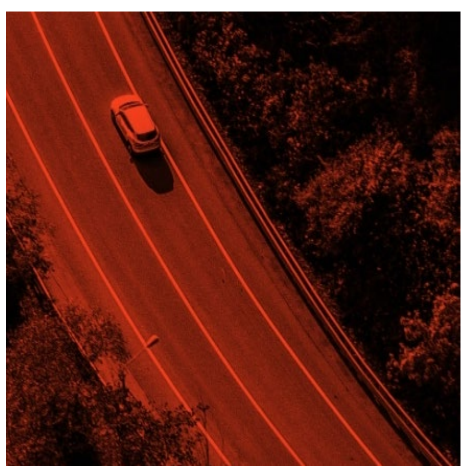
Insurify



INSURIFY

COMPANY OVERVIEW

Founded in 2013, Insurify is a digital insurance distribution business with a price comparison website, which is pivoting from primarily being a referral provider to becoming a digital broker on behalf of insurance carriers. The company focuses on creating a price comparison experience for consumers shopping for insurance. Insurify endeavors to act as a digital broker when possible or refer the consumer to a carrier and be paid on a pay-per-click basis.

TRANSACTION OVERVIEW

MCF1 and MCF2 completed a $50M Series B investment in Insurify, alongside Viola Ventures, which also made a $50M investment. Motive's $50M investment represented 8.3% ownership and is equally split across MCF1 and MCF2. Motive's fully-diluted stake today is 7.5% due to planned issuances of employee options.

MOTIVE BOARD REPRESENTATION

Investment

- Insurify delivered another quarter of strong performance, closing Q1 2025 with $117M in total revenue, reflecting 658% year-over-year growth, and $6.6M of EBITDA. Growth continues to be driven by strong referral revenue performance with significant growth across various revenue channels including paid marketing, SEO, and partnerships
- The company's liquidity position strengthened further, with $76.3M in cash reserves as of the end of March 2025, providing financial flexibility for future growth investments, including M&A

Strategy [22]

- Referral remains the dominant source driving revenue, accounting for approximately 93% of Q1 2025 revenue
- Insurify is executing on plans to expand beyond its core auto insurance offering, with new initiatives in home insurance and the rollout of Seven, its short-term auto insurance product, which is now live in two states and is expected to continue scaling throughout the rest of 2025
- The company continues to enhance AI-driven capabilities to optimize customer acquisition, drive engagement, and improve monetization efficiency, including AI-powered sales automation and personalization
- Insurify continues to monitor the M&A landscape for accretive acquisitions and is focused on expanding its revenue streams and further differentiating its product

Commercial

- While the auto insurance market is stabilizing, broader macroeconomic trends, including tariff impacts on claims costs, may influence carrier marketing budgets in 2025
- While Insurify experienced some volatility in carrier demand during Q1 2025, performance remains well above historical norms. Management has implemented a prudent operating plan to navigate the current environment
- Insurify continues to scale its direct carrier relationships, reducing reliance on third-party networks and improving monetization efficiency
- Management is prioritizing SEO, strategic partnerships, and direct sales to drive sustainable, profitable growth

Product [23]

- Seven, Insurify’s short-term insurance product backed by a major carrier partner, has launched in two states, with plans to expand into additional states over the course of 2025. Insurify is also in active discussions with other insurance carriers to launch additional short-term insurance offerings
- Investments in AI-driven personalization and automation are enhancing customer retention, quote conversion, and pricing efficiency
- The dual-brand strategy (Insurify and Compare.com) continues to effectively segment customer acquisition strategies, optimizing reach across diverse consumer segments

Talent

- Insurify’s headcount increased to 193 employees in Q1 2025, supporting growth in sales, engineering, and product development
- Management is maintaining a disciplined hiring approach for 2025, aiming to align with profitability and cash flow priorities

Motive Create / Technology [24]

- Motive Create is collaborating with Insurify to deploy AI-driven customer engagement tools and automated sales agents
- The company is leveraging AI-enabled search tools to deliver record levels of organic traffic, which positions Insurify for sustained long-term growth

Financial [25]

- Revenue: $117.0M in Q1 2025, a 661% increase since Q1 2024
- EBITDA: $7.0M in Q1 2025, up from breakeven in Q1 2024

InvestCloud

COMPANY OVERVIEW

Founded in 2010, InvestCloud Inc. (“InvestCloud”) is a provider of modular, enterprise-grade digital wealth and investment management software solutions. It focuses on using a cloud-based transformation process to digitize legacy investment management platforms (for asset managers, wealth managers and asset servicers), enabling financial institutions to modernize their platforms. Through Motive's combination of InvestCloud, Tegra118, Finantix and Advicent, InvestCloud strives to offer a complete wealth management technology solution to the financial services industry.

TRANSACTION OVERVIEW

MCF1 and MCF2 completed the acquisition of InvestCloud, alongside funds advised by Clearlake Capital Group, L.P. ("Clearlake"), encompassing an investment of $100M by MCF2 and the contribution of MCF1 portfolio companies Tegra118 and Finantix at a combined value of $160M for its stake.

In November 2023, MCF2 and Clearlake provided $146M of new cash funding to InvestCloud in addition to $36.3M which was previously provided in Q3 through a bridge financing. InvestCloud plans to use proceeds from the new funding to pay down existing liabilities and fund strategic initiatives and growth. A syndication of $16.7M to MCF1 closed in Q2 2024 and a syndication to other co-investors closed in Q2 2024.

MOTIVE BOARD REPRESENTATION

Jeff Yabuki, Chief Executive Officer & Chairman, InvestCloud; Founding Partner & Chairman, Motive Capital
Rob Heyvaert, Founder & Managing Partner, Motive Capital
Scott Kauffman, Founding Partner, Motive Capital
Richard Lumb, Motive Industry Partner & Former CEO of InvestCloud
Doug Smith, Motive Industry Partner
Miguel Tejeda, Principal, Motive Capital (Obs.)

1. Please see Notes 2 and 3 in the Performance Endnotes for important information.
2. Please see Notes 4 and 5 in the Performance Endnotes for important information.
3. The investment in InvestCloud signed and closed in February 2021 and encompassed a $100M investment from MCF2 and the contribution of MCF1 portfolio companies Finantix and Tegra118, at a combined value of $160M (based on a 1.4x valuation supported by a fairness analysis provided by Duff & Phelps, LLC, on an original combined cost of $114.4M), to a platform branded under InvestCloud. As a result, MCF1's investment was marked at 1.4x the contribution value.
4. Inclusive of Motive-managed co-investment vehicles only. On June 30, 2021, Motive syndicated Fiserv's investment in InvestCloud (deemed non-core) to Motive-managed secondary and co-investors.
5. Entry enterprise value and equity value and associated multiple reflective of the combination of InvestCloud, Tegra118 and Finantix transactions in 2021, and include transaction fees.
6. Current multiple is the current Motive valuation based on Fiscal Year April 30, 2026 revenue.

26 Control investments include transactions in which MCF1 invested as part of an investor consortium and, in such cases, MCF1’s investment has been defined as the transaction type characterized by the investment made by the entire consortium.

Investment

- InvestCloud continues to advance its transformation under the leadership of CEO Jeff Yabuki, with a clear focus on long-term growth, innovation, and operational excellence. The company is executing against a multi-year strategy that includes product standardization, cost efficiency, and investment in next-generation capabilities—particularly within the APL platform, Smart Digital Wealth solutions, and the Private Market Account (PMA) and PMA Network initiative.
- The company actively monitors strategic M&A opportunities that could complement and expand its existing product suite, enhance distribution and onboarding capabilities, and accelerate roadmap delivery in key areas such as alternatives infrastructure, data and analytics, and digital client engagement

Strategy [27]

- InvestCloud is executing a focused transformation agenda designed to drive scalable growth, enhance delivery efficiency, and position the company as the leading technology partner for wealth and asset managers
- The Private Market Account (PMA) and PMA Network initiative officially launched in December 2024, positioning InvestCloud as a first mover in enabling private market investments within managed account structures. The company is targeting an H2 2025 go-live for Phase 1, with strong early traction from existing APL clients managing over $2.5T in AUM and a pipeline representing hundreds of millions in potential PMA-related revenue
- In Digital Wealth, the company continues to shift from custom-built deployments to standardized SmartAX and SmartCX offerings, with development underway and early adoption visible in the RIA and regional bank segments. These modular, repeatable solutions are expected to materially improve delivery efficiency and expand InvestCloud's addressable market
- Cost optimization remains a core pillar of the strategy, with total operating expenses reduced from ~$200M in 2022 to ~$145M forecasted for 2025. Additional margin expansion opportunities are being pursued through a new R&D offshoring initiative, which is expected to improve productivity while maintaining development velocity
- InvestCloud has also overhauled its go-to-market approach, standing up a dedicated APL sales team and implementing a more structured commercial process under CRO Shawn Donovan. These changes have already contributed to a significantly expanded pipeline and improved sales execution across core growth segments

Commercial [28]

- InvestCloud has completed a comprehensive go-to-market transformation aimed at improving sales execution, expanding coverage, and driving subscription-based growth across its core product lines
- The company is seeing early momentum from these changes, with increased activity across key market segments and improved sales cycle discipline. The APL business has benefited from dedicated commercial resources for the first time, and the Digital Wealth segment is gaining traction in the RIA and regional bank channels
- The PMA Network has quickly become a central focus of client interest, generating strong inbound demand across both wealth and asset managers

Product [29]

- The PMA product and supporting infrastructure are progressing toward a phased rollout beginning in H2 2025. The solution enables advisors to manage public and private assets within a unified portfolio structure, with integrated analytics, operational workflows, and performance reporting. Future phases will expand rebalancing capabilities, model-based allocations, and data integrations to support broader use across the wealth ecosystem
- Development of SmartAX and SmartCX is well underway, with an emphasis on creating modular, repeatable solutions that reduce delivery complexity and improve time-to-value for clients
- The APL platform continues to evolve, with ongoing investment in enhancements to trading, model distribution, and advisor tools. Recent updates have strengthened competitiveness against legacy players in

27 There can be no assurance that any of the strategic initiatives or M&A activity described herein will ultimately be successful.
28 There can be no assurance that any of the commercial initiatives described herein will ultimately be successful.
29 There can be no assurance that any of the product initiatives described herein will ultimately be successful.

the managed accounts space and positioned InvestCloud to expand its role as a core infrastructure provider for asset and wealth managers

Talent

- In 2024, the company streamlined its executive leadership team to enhance focus and efficiency, reducing CEO direct reports and simplifying decision-making across functions
- Targeted workforce realignments were implemented to concentrate resources on high-priority initiatives, particularly in product development and client delivery

Motive Create / Technology [30]

- InvestCloud is working with Motive Create to develop AI-powered tools for advisor workflows and operational efficiency along with advisory assistance on PMA development

Financials [31]

- Revenue: $71.3M in Q1 2025 (Q1 2026 Fiscal Year), approximately flat compared to Q1 2024
- EBITDA: $14.8M in Q1 2025 (Q1 2026 Fiscal Year), a 58% increase since Q1 2024

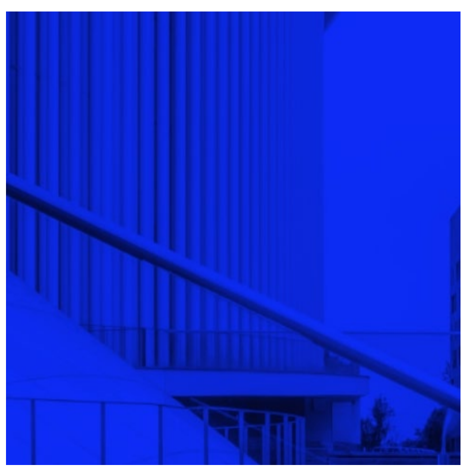
LPA



lpa_

COMPANY OVERVIEW

Founded in 1999, Lucht Probst Associates GmbH ("LPA") combines capital markets expertise and knowledge to configure software and solutions that help financial institutions make better decisions and automate processes in a way that is globally scalable, reduces cost and ensures regulatory compliance. LPA has built a diverse client base of over 100 financial institutions of European banks, primarily in Germany and Western Europe.

TRANSACTION OVERVIEW

On November 8, 2018, MCF1 acquired a 76.0% stake in LPA at a valuation of €31.7M / $36.2M, representing a 1.1x LTM September 2018 revenue multiple.[32] MCF1's investment in LPA was structured in the form of a 50% upfront cash consideration and 50% deferred payment based on exceeding certain financial thresholds between 2021-2023.[4] Post-investment, MCF1 syndicated a portion of its investment to a Motive co-investor.

Since investment, LPA has pursued an active M&A strategy including Modelity (October 2019), EffCom (October 2019) ,Acarda (October 2020) and DDS (April 2025). As a result, Motive increased its investment in LPA to fund a portion of these bolt-on transactions. Based on financial performance through 2021, LPA achieved €9.8M / $11.2M of its revenue based earn-out. This took the overall entry to entry enterprise valuation to €41.5M / $47.4M (1.5x LTM September 2018 revenue multiple).

MOTIVE BOARD REPRESENTATION

Scott Kauffman, Founding Partner, Motive Capital
Peter Schurau, Motive Industry Partner & Co-CEO of LPA
Neil Cochrane, Partner, Motive Capital

Please see the Performance Endnotes for important information.

1. Please see Notes 2 and 3 in the Performance Endnotes for important information.
2. Please see Notes 4 and 5 in the Performance Endnotes for important information.
3. MCF1's investment in LPA was structured in the form of a 50% upfront cash consideration and 50% deferred payment based on exceeding certain financial thresholds between 2021-2023. LPA's financial performance allowed the shareholders to achieve €9.8M / $11.2M of its revenue-based earn-out. Motive provided a €4.8M / $4.8M bridge loan through MCF1 to fund a portion of this earn-out. This bridge loan was repaid in March 2024 and is therefore excluded in the calculation of Gross MOIC and IRR, respectively.
4. Entry multiple includes the deferred consideration of €9.8M.

32 Multiple excluding €9.8M earn-out.
33 Control investments include transactions in which MCF1 invested as part of an investor consortium and, in such cases, MCF1's investment has been defined as the transaction type characterized by the investment made by the entire consortium.

Investment [34]

- LPA closed on its 100% acquisition of Derivatives Data Service ("DDS") in April 2025 and also acquired the outstanding minority stake in Zertifikatefabrik, a subsidiary of EffCom, bringing its ownership of the business to 100%. The acquisition of DDS significantly strengthens LPA product offering and provides strong cross-sell opportunities
- The aforementioned transactions were funded through a €6.5M Loan Note with 20% PIK interest from MCF1 to LPA
- LPA and Motive continue to jointly evaluate M&A opportunities to support the consolidation of the industry and leverage the benefits of LPA's scale

Strategy [35]

- Management is running the software and consulting businesses as separate units. A further update on their business plans for the business units is expected next quarter
- LPA's growth strategy and market positioning remain consistent, with the business continuing to focus on profitable growth. Investments in product over the past year have allowed the business to pursue sales opportunities more aggressively
- The company continues to invest in its software modules (Structured Products, OTC, and Asset Management) to drive product improvements in line with the roadmap, and ultimately long-term sustainable growth

Commercial [36]

- LPA continues to see strong demand for the product offering, with instances of clients from competitors directly approaching LPA to provide a superior solution; the sales team continues to actively engage these clients in discussions around appropriate proposals to potentially displace competition
- The sales pipeline is robust with approximately €15M of annualized recurring revenue
- The new sales initiative (Project Shift, launched in Q3 2024) continues to show promise, with conversations progressing with multiple banks. In particular, a new agreement to provide Capmatix structured product solutions has been struck with a major Canadian bank; the expected ARR of this agreement is over €300,000. Additionally, LPA has a handshake agreement with another Project Shift client, and has also reached a handshake agreement with the New York office of a European bank, representing progress in its geographic expansion to the United States

Product [37]

- LPA continues to progress along its roadmap around technology consolidation and automation initiatives within its software platform alongside offshoring certain resources to Vietnam

Talent

- Three additional employees joined LPA in Q1 2025 with approximately five vacancies outstanding. LPA continues to attract talent from competitors in the market

Motive Create / Technology [38]

- Motive Create continues to work with the business to support the product & technology strategy and the evaluation of potential M&A

Financials [39]

- Revenue: €11.8M in Q1 2025, a 2% decrease compared to Q1 2024
- Adjusted EBITDA: €2.5M in Q1 2025, an 8% increase compared to €2.3M in Q1 2024

Notes: Information contained herein is as of March 31, 2025. All transaction numbers include fees. Please refer to the Detailed Track Record of MCF1, including the notes set forth therein, for a detailed discussion of investment performance. Please see the Performance Endnotes for important information.

1. Please see Notes 2 and 3 in the Performance Endnotes for important information.
2. Please see Notes 4 and 5 in the Performance Endnotes for important information.
3. Entry LTM EBITDA includes Benchmarks business and performance fees; represents 2020F EBITDA from underwriting. Entry enterprise value and equity value include transaction fees.
4. Current multiple refers to Core Wilshire (excludes Wilshire's stake in Indexes) and is based on LTM March 31, 2025 PF Adj. EBITDA for Wilshire (fully PF for Lyxor acquisition, XTP acquisition, and Analytics divestiture).
5. Motive designated Jason Schwarz, Wilshire's President, as its fourth Board Member.
6. Enterprise and equity value reflect core Wilshire (PF for Analytics divestiture), Lyxor, and Wilshire's stake in Indexes.

41 A syndication from MCF1 to Motive co-investors closed in H1 2025.

42 Control investments include transactions in which MCF1 invested as part of an investor consortium and, in such cases, MCF1's investment has been defined as the transaction type characterized by the investment made by the entire consortium.

Investment

- Wilshire remains focused on scaling its core segments, Wealth & Retirement, Alternatives, and Analytics, through a combination of organic growth and targeted M&A. The business continues to prioritize opportunities that align with long-term secular trends and support the shift toward higher-margin, technology-enabled offerings
- Following the recapitalization of the carved-out Index business in December 2024, Wilshire as a collective (core business & Indexes) remains well-capitalized to pursue strategic initiatives. The company is actively evaluating several potential acquisitions aligned to its core growth areas, and as of Q1 2025 has submitted indications of interest on two strategic targets: a retirement-focused TAMP platform and a U.S.-based transaction cost analytics provider. These assets are expected to enhance Wilshire's product breadth, strengthen distribution partnerships, and support cross-sell efforts into the existing institutional and wealth client base [43]

Strategy [44]

- Wilshire is executing against a clear strategic plan to reposition the business around high-growth, scalable segments and to expand its platform across wealth, retirement, and alternatives through organic growth, cost discipline, and strategic M&A
- The integration of XTP continues to track well, with positive client feedback and early commercial momentum. XTP's capabilities are being actively positioned for cross-sell into Wilshire's institutional and consulting client base, supported by sales enablement and dedicated personnel resources
- The Lyxor carveout has been successfully completed, with the asset fully integrated into Wilshire and dis-synergies performing materially better than expected. In parallel, the divestiture of the legacy Analytics business was completed ahead of plan and exceeded financial expectations
- Wilshire continues to refine its institutional business strategy by executing targeted cost reduction measures and reallocating resources toward higher-growth areas. Organizational changes implemented in Q1, along with ongoing initiatives across facilities, technology, and vendor spend, have kept the company ahead of plan on its 2025 cost savings targets

Commercial [45]

- The company is seeing early success in cross-selling XTP and Lyxor offerings into its institutional and consulting client base, with active conversations underway across public, corporate, and nonprofit plans
- Wealth & Retirement growth is being driven by expanded recordkeeper and RIA relationships, supported by increased adoption of flagship products like WPAFX and custom model portfolios
- Alternatives demand continues to grow across its fund-of-funds products, with strong net inflows and additional fund closings expected on the horizon
- Sales hiring ramped in Q1 to support momentum, with new roles focused on pipeline conversion and strategic account coverage

Product [46]

- Wilshire continues to scale its custom model portfolio and retail fund-of-funds platforms, with growing adoption across intermediaries and new subscriptions in private credit and European PE strategies
- XTP capabilities are being integrated into institutional offerings, with product development focused on launch-ready, modular solutions aligned to commercial priorities

Talent

- Wilshire is planning targeted headcount investments in 2025 to support growth across core segments, particularly in sales and client-facing roles aligned to Wealth, Retirement, and Alternatives
- While several hires are planned for the year, some Q1 roles were delayed due to timing and prioritization

43 There can be no assurance that any such M&A opportunities will ultimately be consummated.
44 There can be no assurance that any of the strategic initiatives or M&A activities described herein will ultimately be successful.
45 There can be no assurance that any of the commercial initiatives or M&A activities described herein will ultimately be successful.
46 There can be no assurance that any of the product initiatives described herein will ultimately be successful.

Motive Create / Technology [47]

- Motive Create is working with the deal team and Wilshire management to conduct diligence on and assess the productization opportunity of a current M&A engagement [48]

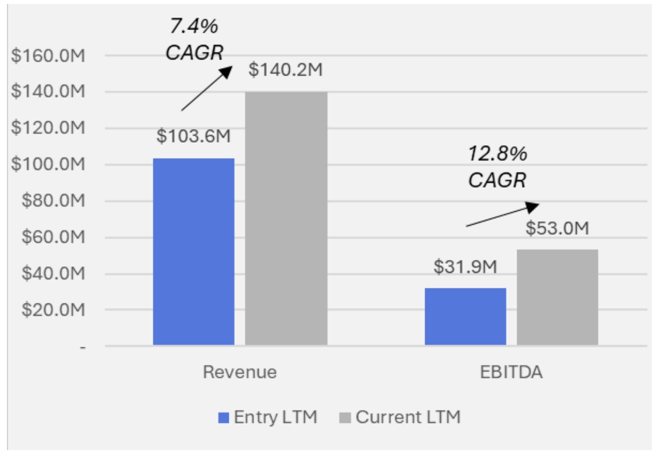
Financials [49]

- Revenue: $33.2M in Q1 2025 (excluding contribution from the recently divested Analytics division), which is a 2% decrease from Q1 2024
- EBITDA: $9.6M in Q1 2025, which is a 12% decrease from Q1 2024

	QUARTERLY RESULTS	
MILLIONS	Q1 2024	Q1 2025
Revenue	**$33.8**	**$33.2**
% growth		(1.9%)
PF Adj. EBITDA	**$11.0**	**$9.6**
% margin	32.5%	29.0%
% growth		(12.3%)

Note: All Revenue and Adjusted EBITDA figures are pro forma for the Lyxor and XTP acquisitions and Analytics divestiture. Quarterly Adjusted EBITDA includes identified run-rate cost savings.

LTM Financials (USD)



Note: Entry LTM Revenue and EBITDA exclude Wilshire Benchmarks; current LTM revenue and EBITDA are pro forma for the Lyxor and XTP acquisitions and Analytics divestiture. LTM Adj. EBITDA includes run-rate savings adjustment for previously-actioned cost initiatives.

47 Any fees and expenses related to Specialized Operational Services that are received by Motive Create will not reduce or otherwise offset any management fees payable by MCF1. Please see the table on page 39 for additional disclosures regarding the fees paid to Motive Create.

48 There can be no assurance that such M&A opportunity will ultimately be consummated.

49 Please refer to the Detailed Track Record of MCF1, including the notes set forth therein, for a detailed discussion of investment performance.

Motive Capital Fund 1 aggregated industry partner compensation

Industry Partners may assist in the development of investment opportunities by sourcing, supporting due diligence and supporting the operational and management teams of Motive Fund portfolio companies post consummation. As outlined in Section 3.4(c) of the Motive Capital Fund 1 Limited Partnership Agreement, an Industry Partner may be eligible to receive development fees in the form of cash paid by a Motive Fund or in the form of earn outs, cash or equity incentives directly from a portfolio company ("Development Fees"). Such Development Fees may not exceed one percent (1%) of the enterprise value of the relevant portfolio company without approval of the relevant limited partner advisory committee. To the extent that such Industry Partner provides management services to a portfolio company post consummation, the Industry Partner may also receive a salary, bonus and equity incentive compensation directly from such portfolio company. In addition, MCF1 may reimburse Industry Partners for out-of-pocket expenses incurred with respect to activities relating to due diligence, or the management or monitoring of a portfolio company. As of May 31, 2025, Industry Partner compensation in connection with each portfolio company was less than one percent (1%) of the relevant portfolio company's enterprise value. If an Industry Partner becomes a full-time member of the portfolio company's management, any compensation paid thereafter is assumed to be received by the Industry Partner in their capacity as a member of management.

Development Fees are paid in connection with the consummation of the relevant investment and are either (1) included in such investment's closing costs and allocated among the parties that participated in the investment based on their post-close ownership percentages or (2) paid directly by MCF1, MCF2 and Motive-controlled co-investment vehicles and allocated pro-rata among such vehicles based on invested capital.

As of May 31, 2025, MCF1 has been allocated a life-to-date total of $4,603,260 of such Development Fees related to MCF1's portfolio companies, which will not offset MCF1's management fee. Furthermore, any realized and unrealized value relating to such Industry Partners' cash compensation and equity interests in MCF1's portfolio companies is not reflected in such amounts. In addition to such amounts, certain Industry Partners may have a potential ongoing management role in a portfolio company for which they will be compensated directly by such portfolio company. Industry Partners are generally not employees of Motive and neither Motive nor its employees receive any portion of the Development Fees, compensation, or equity interests that may be granted to Industry Partners in connection with a portfolio company. As such, no portion of the fees, compensation, or equity interests received by the Industry Partners reduces the management fee that MCF1 pays to Motive.

MCF1 – aggregated industry partner incentivization

Portfolio company	MCF 1 allocation	MCF 2 allocation	Motive co-invest vehicles allocable amount	Other investors' allocable amount	Total aggregate development fee[1]	LTD annual compensation[2]	LTD bonus paid by portfolio company	Total to date (excl. MIP)	Management incentive plan (MIP)
Global Shares	$3,449,709	-	-	-	$3,449,709	$679,321	-	$4,129,030	-
LPA	$59,212	-	$56,788	-	$116,000	-	-	$116,000	-
InvestCloud[3]	$544,568	$77,588	$1,223,550	$1,120,294	$2,966,000	$3,702,696	$1,756,232	$8,424,928	0.78%[4]
Forge Global	$166,667	$333,333	-	-	$500,000	-	-	$500,000	Up to 30% of profits[4]
Wilshire	$258,104	$258,104	$218,791	$765,000	$1,500,000	$540,540	$2,000,000	$4,040,540	-
Insurify	$125,000	$125,000	-	-	$250,000	-	-	$250,000	-

Note:
1. Represents aggregate fees paid to Industry Partners at consummation of investment or post-acquisition M&A activity.
2. Excludes compensation for full-time members of Portfolio Company's management.
3. Includes compensation related to Tegra118 and Finantix, as they were stand-alone portfolio companies, prior to InvestCloud transaction.
4. Represents net allocation to Industry Partners as a percentage of total equity proceeds of the Portfolio Company, which is the cost borne by the Portfolio Company.

Specialized operational services

MCF1 or its portfolio companies may engage service providers that are affiliates of, or otherwise have a relationship with, the general partner of MCF1 (the "GP"), MCM or their respective Affiliates, including, for the avoidance of doubt, Motive Create or another portfolio company (including portfolio companies of another investment vehicle managed by MCM) (each, a “Specialized Operational Service Provider”) to provide Specialized Operational Services (as defined below). Specifically, certain employees and consultants of Specialized Operational Service Providers may provide specialized operational, advisory, diligence, technology, development, technical support and value creation planning (including the establishment, implementation and progress assessment of transformation plans including objectives and periodic reviews of performance against such objectives in certain key areas such as leadership, operations, technology transformation, technology non-functionals (e.g. cyber, performance, penetration testing), market extension, geographic expansion, sales and distribution, pricing strategy, resources, budgets, benefits and operational efficiency) services and related specialized services (collectively, “Service Arrangements”) to MCF1 or its portfolio companies. Specialized Operational Service Providers may also sell or license software or product technology (“Licensing Arrangements” and, together with Service Arrangements, “Specialized Operational Services”) to MCF1 or its portfolio companies.

Any fees or other compensation paid to the GP, MCM, Motive Create, any portfolio company or any of their respective affiliates in respect of such Specialized Operational Services shall not be shared with any Limited Partner and shall not reduce the Management Fee; provided that, unless otherwise approved by the Limited Partner Advisory Committee, (x) any such fees borne by MCF1 or a portfolio company in connection with Service Arrangements shall be charged at rates not in excess of rates for which substantially equivalent services could have been obtained from an unaffiliated third party and will generally be calibrated, in the case of fees borne by a portfolio company, to the size of the portfolio company and, with respect to value creation planning services, will also be calibrated based upon the scale of the required transformation, (y) any such fees borne by MCF1 or a portfolio company in connection with Licensing Arrangements shall be charged at rates not in excess of those that would otherwise be charged to a third party and (z) none of the GP, MCM, Motive Create or any of their respective affiliates shall receive compensation for Specialized Operational Services in the form of earn outs or equity incentives from a portfolio company. In addition, Specialized Operational Services may also include the reimbursement, at cost, of any third-party software or infrastructure expenses incurred by the person providing such Specialized Operational Services in connection with the provision of such Specialized Operational Services.

In order to ensure that the conditions above are satisfied with respect to Specialized Operational Services provided by Motive Create, MCM has voluntarily established a committee (the "Conflicts Committee") to review and approve any arrangements between a Motive Fund and/or its portfolio companies, on the one hand, and any affiliates that present a conflict of interest as an additional control. MCM's Conflicts Committee currently consists of six senior members of Motive, including the firm's Managing Partner, CFO and CCO.

As of May 31, 2025, MCF1 and its portfolio companies have incurred a life-to-date total of $17,123,092 of Specialized Operational Services, which will not offset MCF1's management fee. Of this total amount, $1,362,471 was incurred by MCF1 in connection with due diligence services provided by Motive Create, and $15,760,621 was incurred by MCF1 and its portfolio companies for Specialized Operational Services related to ongoing value creation services provided by Motive Create to MCF1's portfolio companies.

Special income

Any transaction, directors', management, monitoring, consulting and break-up fees and other similar fees received by means the GP, MCM, the key persons of MCF1 or their respective officers, directors, managers, employees or affiliates (each, a "Special Income Recipient") in connection with any investment, proposed investment or portfolio company, net of unreimbursed transaction expenses incurred by such Special Income Recipient or its affiliates in respect of such Investment ("Special Income"), will be applied to reduce the MCF1 management Fee for the following quarterly period. Certain Special Income Recipients and other persons affiliated with MCM, including its affiliates, employees, Industry Partners and certain consultants, are expected to receive certain additional fees which (either by nature of their character or the character of the applicable recipient) will not constitute "Special Income," will not be shared with MCF1 or its limited partners, and will not reduce MCF1's management fee (such fees, "Additional Fee Income").

Notwithstanding the foregoing, Special Income will only include the portion thereof that is allocable to the limited partners in respect of which the management fee is being assessed and will exclude (a) any compensation in respect of Specialized Operational Services, (b) any compensation paid to the Special Income Recipients by or in respect of co-investors or strategic co-investment vehicles, (c) any compensation paid to MCM or its affiliates in connection with office leases or other ordinary-course contracts entered into with portfolio companies and (d) any compensation paid to Industry Partners.

Special Income may be payable in the form of equity interests, profit interests, options, warrants or other non-cash compensation; provided that non-cash Special Income will be deemed received when converted into cash and upon the termination of MCF1, the fair market value of any non-cash compensation which has not been previously realized will be deemed received as of such date of termination.

To the extent that the offset of Special Income would reduce the management fee for a given quarterly period below zero, such offset will be carried forward and reduce future installments of the management fee. If upon dissolution of MCF1, any excess Special Income remains, MCM will return to MCF1 for the benefit of the Partners an amount equal to such unapplied excess amount; provided that any limited partner may waive its right to receive its pro rata portion of such amount, in which case such amount may be retained by the original recipient(s) of such Special Income.

As noted above, affiliate fees received by Special Income Recipients will only constitute Special Income to the extent of MCF1's allocable portion of such fees (generally equal to MCF1's pro rata interest in the portfolio company generating such fees) and, due to the fact that MCF1 will from time to time be a minority investor in a portfolio company (relative to Motive-affiliated co-investors and/or relative to other non-affiliated co-investors in the portfolio company), a substantial portion of such fees which are not attributable to MCF1 will not constitute Special Income, offset the MCF1 management fee, or otherwise inure to the benefit of MCF1 or any Limited Partner. For the avoidance of doubt, MCF1's management fee will not be offset by any Additional Fee Income that is attributable to Motive managed co-investment vehicles and/or non-affiliated co-investors, and the calculation of the management fee offset does not take into account whether such non-affiliated co-investors are also entitled to receive fees directly from the applicable portfolio company.

Special income ($) as of May 31, 2025

Services fees[1]

INVESTCLOUD
