Fund Summary

Fund Summary

- Bragnum Invest (E) AB and Bragnum Invest (D) AB ("Bragnum Invest") had its first closing on December 7, 2017 and its final closing on September 30, 2019 with total capital commitments of SEK 666 million
- Investments were made in Metrolit in August 2018, SkySparc in May 2019, Sandbäckens in July 2020, Layer Group in February 2021, Lägenhetsbyte in March 2022, Paxport Group in September 2022, Nya Energihem in December 2022, Vinga Nordic in June 2023 and 13:e Protein Import in September 2023. The investments in Sandbäckens and Pinerock Group (Metrolit) were divested on March 1, 2021 and September 26, 2024, respectively
- The fund will not make any further platform investments and the Investment Period expired on December 6, 2023. There may however be further draw downs to support the existing investments and to fund cost coverage

Fund Valuation

- All portfolio company valuations remain unchanged Q1-2025 vs Q4-2024. The overall fund valuation remains at 3.0x invested money, of which 1.3x has been realised

Capital Calls and Distributions

- No capital calls and/or distributions were made during Q1 2025
- Subsequent to the Report Date (31 March 2025), one combined capital call and distribution was made in April for capital repayment of remaining undistributed proceeds from the Pinerock divestment (only relevant for investors in Bragnum Invest (E) AB), the co-invest in Vinga Nordic and fund related expenses

Fund Size:	SEK 666,000,000
First closing:	7 December 2017
Final closing:	30 September 2019
Vintage year:	2017/19
Fund's domicile:	Sweden
Legal form:	Swedish Limited Liability
Investment focus:	Business services and Buy-and-Build
Investment focus:	Sweden and Finland
Fund expiry date:	10 + 5 years after first closing

Portfolio Company Highlights (1/2)

SkySparc's revenue in Q1 reached SEK 75.5m; an increase by 18% compared to the same period prior year driven by the acquisition of Infiniance. Adjusted EBITA was down SEK 2.2m to SEK 14.1m partly due to currency effects (SEK 1m). All business areas had a stable performance in Q1, and the smaller business area Strategy & Transformation returned to profit. SkySparc increased its net cash position by SEK 29m to SEK 42.7m compared to Q4-2024 mainly due to yearly software license payments. The valuation remains at 3.75x.

Layer Group is facing worsening market conditions especially in southern Sweden and Finland. YTD sales were SEK 544m and adjusted EBITA SEK 8m. The EBITA margin was disappointing at 1.5%, down from 2.3% last year. The cost review program has been expanded and work on IPO preparation and acquisitions have been paused as all focus is on improving the operations of existing units. The valuation remains at 1.0x.

Relocasa's revenue increased by 19% in Q1 vs prior year, with LTM revenue increasing to SEK 43.8m. Adjusted EBITA dropped to a loss of SEK -0.9m in Q1-2025 (positive SEK 1.4m prior year) burdened by bigger start-of-the-year marketing investments in Sweden and in the Netherlands. Net cash decreased to SEK 3.6m (3.7m prior year) and the Company remains debt free. Relocasa remains valued at 1.0x.

Paxport delivered Q1 revenue of SEK 103.2m and adjusted EBITA of SEK 18.9m which was largely in line with the same period prior year. Net cash was SEK 20.8m at 31 March 2025. The Nordic business area (Paxport AB) and the aggregation business (Paxport Group UK) continue to perform and are well ahead of prior year. However, the payments business (Pax2Pay) faced challenges. In addition to planned cost increases for growth initiatives and the UK and EU e-money licenses, there was a volume drop from one major customer and pressure on the interchange fee levels. Pax2pay is behind budget and prior year on revenue and earnings. The valuation remains at 4.75x, whereof 0.3x has been realised.

Nya Energihem continues to face a challenging market due to high interest rates and relatively low energy prices. A new cost saving program has been implemented which had full effect in March 2025. Revenue was SEK 23.0m (SEK 13.5m prior year), and adjusted EBITA was negative SEK –1,0m (SEK -3.1m prior year). Given the weak financial performance and the challenging market, the valuation is kept at 0.5x current cost of investment.

Portfolio Company Highlights (2/2)

Vinga Nordic increased revenue to SEK 88.8m (SEK 36.4m prior year) in Q1 driven by acquisitions and greenfield start-ups. Adjusted EBITA was SEK 8.8m (SEK 6.6m prior year). LTM adjusted EBITA was SEK 29.2m, down from SEK 31.6m prior quarter, mainly due to the greenfield start-up investments (SEK -1,2m) and weaker delivery in two business units. Net debt increased to SEK 69.3m (67.3m prior quarter) impacted by temporarily high NWC. Most business units had a stable performance in Q1 but two units had lower utilization levels in January and February. In general, the market conditions are toughening. Two new greenfield start-ups were established in Q1. The valuation remains at cost.

13:e Protein Import increased revenue by 8.2% to SEK 193.0m (SEK 178.4m prior year) in Q1. EBITA decreased to SEK 30.6m (SEK 41.4m prior year) as gross margins fell back to more normal levels (Q1 2024 was exceptionally high). The financial performance in Q1 2025 was also negatively impacted by ongoing investments in new production lines and the relocation of the production facility of capsules and pills to enable further growth. The valuation remains at 2.25x current cost of investment.

Sandbäckens was divested on March 1, 2021. The investment returned 2.1x invested money and generated an IRR of 224%.

Metrolit/Pinerock Group was divested on September 26, 2024. The investment returned 16.3x invested money and generated an IRR of 65%.

Events subsequent to the Report Date (31 March 2025):

In April 2025, Bragnum II sold shares in Vinga Nordic to a co-investor, reducing Bragnum's ownership in Vinga Nordic from 48.3% to 40.7%.

Contents

SkySparc Overview

Company Overview

- SkySparc is a provider of financial and technical consulting services, outsourced support and its own developed testing and data management software OmniFi. Customers are central and commercial banks, asset managers and larger corporates that use complex treasury and risk management (TRM) platforms
- The Company is a global market leader with an estimated 30% global market share in its niche focusing on the TRM platform ION Wallstreet Suite ("WSS"). A main part of the value creation plan is to broaden the service offering to additional platforms. This expansion is likely to have a negative impact on overall short-term margins but will build a stronger base for improved long-term profitability and will strategically reposition the Company
- The acquisition of SkySparc AB closed on 24 May 2019. Enterprise value of SEK 221.3m equalled 7.2x LTM February 2019 adjusted EBITA or 7.5x 2019E EBITA
- The purchase price for the shares, including costs for due diligence and bank fees, was SEK 255.0m financed by equity of SEK 76.7m from Bragnum Invest, roll-over of equity by founders and management of SEK 49.6m, equity from the CEO of SEK 3.6m, senior bank debt of SEK 110.0m and a vendor loan of SEK 15.0m. The size of the investment by Bragnum Invest has changed slightly after the acquisition as a result of transactions in the management investment program

Note: Unaudited figures
YTD, LTM and 12 months figures are pro-forma for acquisitions made before each respective period-end
Adjustments LTM mainly relate to redudancy costs in BA Strategy & Transformation and M&A-related costs

Commentary

- Q1 revenue increased compared to the same period prior year driven by the acquisition of Infiniance, whereas adjusted EBITA was down SEK 2.2m to SEK 14.1m. The weaker profitability is due to currency effects (SEK 1m), start-up of a U.S. green-field primarily targeting users of the Kyriba system, increased marketing expenses and lower allocation levels
- Although the pipeline is growing stronger, in the wake of the current macroeconomic uncertainty, customers are taking longer to procure new assignments and some allocated work is delayed
- All business areas showed stable performance in Q1. The smaller business area Strategy & Transformation returned to profit in the quarter after a period of losses
- Management has accelerated the pace of M&A efforts and several discussions are at advanced stages
- SkySparc had a net cash position at 31 March 2025 of SEK 42.7m following yearly software license payments. Refinancing opportunities will be explored depending on the outcome of the ongoing M&A discussions

SkySparc Actions

Selected Ongoing Initiatives	Selected Completed Initiatives

Selected Ongoing Initiatives

- Revision of pricing and contract structures to increase recurring revenues, such as subscriptions
- Work to increase utilization and improve chargeability
- Intensified interaction with potential add-on acquisition candidates
- Evaluation of cooperation(s) with other TRM system suppliers such as Calypso and Simcorp
- Profitability enhancing activities within the Murex and general treasury consulting businesses
- Evaluation of the potential to "productify" and sell the own software Omnifi independently from the other services supplied by SkySparc
- Analysis of refinancing opportunities depending on add-on pipeline

Selected Completed Initiatives

- New organisation and reporting structure with proper business areas with full profitability responsibility
- Management and sales teams strengthened
- New business areas serving users of the systems Murex, Quantum, Integrity, SAP Treasury and Kyriba established, including partnerships with Murex, FIS and Kyriba
- Development of new software products and adoption of own developed software Omnifi to additional TRM systems
- Add-on acquisitions of Mindbanque in August 2022 and Infiniance in July 2024
- Organic start-up of out-shored low-cost location in Sri Lanka
- Greenfield in the US targeting non-WSS market established with local management
- Repayment of vendor loan lowering interest costs
- Established framework for EGS reporting and KPIs

Note: See previous quarterly reports for additional details on completed initiatives

Layer Group Overview

Company Overview

- Layer Group (www.layergroup.se) is a leading Swedish provider of painting and related services, such as flooring. The Company was created through acquisitions of locally leading businesses. Layer Group is currently the market leader in the highly fragmented Swedish market and has a leading position in Finland
- The entities operate under local brands with highly decentralized decision-making. Centralized functions provide support in certain areas, e.g. purchasing, joint tendering, quality assurance, controlling, safety & environmental and HR. The Company is primarily focused on renovation and service assignments and customers are public entities, construction companies, real estate owners and private individuals
- Bragnum Invest acquired a minority ownership of 11% together with Litorina Fund V acquiring 39%. The remaining shares were owned by management and former owners of acquired entities. There is a SHA in place ensuring relevant minority protection and influence
- Lars Österberg from Bragnum Invest was the chairman of Layer Group from December 2021 until May 2023, when he was succeeded by Jan-Olof Backman to increase the independence of the board as part of Layer Group's IPO preparation work
- The Company has a committed acquisition facility from its main bank enabling upcoming add-ons to be largely debt-financed

Note: Unaudited figures. Numbers are pro-forma for acquisitions made until each respective period-end
2023 reported revenue and EBITA figures have been updated for a post report date adjustment

Commentary

- Revenue in Q1 was disappointing at SEK 544m, 5.6% below last year and 3.2% below budget. The weak market, especially in southern Sweden and Finland, worsened further. However, there is evidence that Layer are less affected than some of the other larger players and has been gaining market share in most geographies
- The initiated cost reduction initiatives have not been sufficient given the declining revenue and further actions have been implemented. Adjusted EBITA came in at 1.5% and although Q1 is the cyclical low period of the year it is low and shows that the subsidiaries have not been able to manage the size of their blue-collar workforce during the winter
- Given the current trading, a clear focus on operations and profitability has been imple-mented and work on IPO-preparations as well as on further add-ons have been paused
- The market outlook is difficult to assess, with some subsidiaries reporting continued slow customer activity, while others are forecasting an improving market.

Layer Group Actions

Selected Ongoing Initiatives

- The ongoing cost review program has been expanded. Focus remains on central costs as well as on the performance in selected subsidiaries
- Ongoing work to improve management
- Work on centralizing car leasing throughout the group
- IPO-readiness work throughout the company aiming at making Layer Group IPO-ready by end-2026 (postponed due to the full focus on improving operational profitability)
- Pursue add-on acquisitions and green-fields (currently paused to fully focus the company on its existing operations)

Selected Completed initiatives

- Over 40 add-on acquisitions made, including expansion into Finland
- Finalised central purchasing agreement for paint and related consumables
- Launched group brand (Layer Group), including the website www.layergroup.se
- Group management team created, including new CEO, CFO, M&A/Business Development and HR/Communication/-ESG managers recruited
- Flexible financing arrangement implemented with increased acquisition facility (latest refinancing made in December 2023)
- New CEOs of several subsidiaries, including the largest, Stoby
- Improved financial reporting and controlling
- New organization implemented, based on geographic areas
- Closure of poorly performing locations and business areas in certain subsidiaries

Note: See previous quarterly reports for additional details on completed initiatives

Relocasa Overview

Company Overview

- Relocasa, the owner of Lägenhetsbyte (www.lagenhetsbyte.se), is the leading marketplace in Sweden for holders of first-hand rental agreements that seek to permanently swap their apartments with others
- Bragnum Invest formed a partnership with the founders to build on the Company's successful Swedish business and to accelerate growth through i) international expansion; ii) launch of a B2B service; and iii) increased market awareness
- Outside Sweden, the Company has built a strong position in the Netherlands (launched in 2021, www.woningruil24.nl) and in Germany (launched in 2022, www.wohnungsswap.de) and has most recently also launched the platform in Denmark (H2 2024, www.hjembytte.dk). Relocasa has also developed a digital B2B platform called Bytesansökan, launched in 2022, that handles and simplifies the rental agreement swapping process with benefits for both tenants and landlords
- Bragnum Invest acquired a 55.9% share (54.9% post MIP) in the Company in March 2022, with the two founders reinvesting to own a combined 44.1% share. The transaction was 100% equity financed with the plan to invest all cashflow generated in the business into expansion initiatives

Note: Unaudited figures
Adjustments in 2022 relate to international expansion costs, Bytesansökan expansion costs, owner-related costs as well as extraordinary marketing costs
Adjustments in 2023 relate to international expansion costs and Bytesansökan expansion costs
Adjustments in 2024 relate to reorganisation costs, expansion costs in Germany and Bytesansökan
Adjustments in 2025 relate to Denmark expansion costs

Commentary

- Q1 revenue increased by 19% vs prior year, with LTM revenue increasing to SEK 43.8m
  - The core Swedish business showed modest growth, while the development in the Netherlands and Germany was strong
  - Marketing investments were made in the Netherlands during the quarter which burdened EBITA to negative territory (marketing costs are fully expensed when incurred)
  - Germany continued to grow strongly, albeit still from low levels, with limited investments and remained EBITA break-even
  - The market launch in Denmark continued and paid subscriptions were introduced during the quarter
- Adjusted EBITA dropped to a loss of SEK -0.9m (positive SEK 1.4m prior year) burdened by bigger start-of-the-year marketing investments in Sweden and the Netherlands
- Net cash decreased to SEK 3.6m (3.7m prior year) but the Company remains debt free
- Relocasa has continued to invest most of its cashflows into its three growth levers: i) international expansion, ii) B2B platform growth and iii) subscriber growth in existing markets

Relocasa Actions

Selected Ongoing Initiatives

- Increase marketing efforts in Sweden to bring more users to the platform and strengthen network effects
- Develop product and packaging to further increase customer value and grow revenue per user
- Solidify positions in the Netherlands and Germany
- Roll out platform in Denmark

Selected Completed Initiatives

- BoD expansion
  - Anna Olofsson, regional head of marketing at Wolt, has been recruited as a new external board member, joining Relocasa's board at the AGM in June. Anna has deep experience within digital marketing and e-commerce and is a strong addition to the existing BoD
- Rebranding
  - The group has been rebranded from Lägenhetsbyte to Relocasa, as a more international brand name, with a new group website launched, www.relocasa.se
- B2B platform rollout
  - B2B platform Bytesansökan integrated into the rental agreement swap process with most major Swedish landlords onboarded on the platform
- Management incentive programme rollout
  - MIP implemented during Q2 2022 where a large portion of the Company's employees became shareholders
  - Additional round completed in Q2 2023

Note: See previous quarterly reports for additional details on completed initiatives

Paxport Overview

Paxport

Company Overview

- Paxport (www.paxport.com) is a provider of various IT-based B2B services for the travel industry
- The Company offers services in four product areas: i) payment solutions (virtual cards and instant payments for B2B use); ii) ancillary merchandising software (retail merchandising platform for air carriers and resellers); iii) operational management services (systems for passenger management, bookings and operations for travel carriers); and iv) content aggregation solutions (platform containing bookable flights, accommodation and third-party services)
- Paxport serves over 80 European airlines and 250 resellers including tour operators, travel agents and online travel operators, primarily in the Nordics and the UK. Revenue is predominantly generated through revenue sharing, transaction or booking fees and/or subscriptions
- Bragnum Invest acquired a 30.6% ownership, with the founder (not active in the Company) holding 37.5% and management and board members holding the remaining 31.9%. In January 2023, Bragnum Invest acquired an additional 10.0% from the founder

Note: Unaudited figures
2023 12 months figures were updated in 2024 Q1 report to take into account year-end adjustments
Adjustments YTD and 2024 refer to M&A costs and one-off signing bonus

Commentary

- YTD revenue decreased by 2% to SEK 103.2m and adjusted EBITA was SEK 18.9m (19.1m prior year). Net cash at 31 March 2025 was SEK 20.8m including the payout of EUR 0.7m in connection with the part-acquisition of Polish PNR Go
- PNR Go now constitutes an associated company in which the group holds 40% ownership. The earnings of PNR Go are not included in the earnings as presented in this report
- The Nordic business area continues to perform strongly and is ahead of both budget and prior year. The turnaround in the aggregation business is on track and earnings are well ahead of prior year
- The payments business (Pax2Pay) which has contributed substantially to the group's profits in recent years faced challenges as (i) the volume dropped especially from one larger customer, (ii) the interchange fee (main source of revenue) being under pressure due to strong competition and (iii) costs for ongoing growth initiatives including implementation of the UK and EU e-money licenses continue to burden profitability. Pax2pay is substantially behind budget and prior year on revenue and earnings. Cost saving actions are ongoing

Paxport Actions

Paxport

Selected Ongoing Initiatives

- Review of the strategic options for each of the business areas
- Reorganization of product development into specific product teams
- Discussions with potential add-on targets
- Set-up of in-house banking & compliance organisation to meet requirements under UK E-money license
- Establishment of partnerships with aggregators in other geographies (especially Asia) to broaden content in the aggregation business and to drive volumes in the payment arm
- Discussions with larger payment companies regarding possible co-operations
- Expansion of the retail merchandising platform outside the Nordics and also into scheduled flights and sale of empty seats to airline staff
- Expansion of payment business into direct payments
- Review of strategy and costs savings in Pax2pay

Selected Completed Initiatives

- UK E-money license to become a proper virtual card issuer on its own books granted by the FCA
- Separation of the three main business areas into separate entities allowing separate exits
- Launch of separate branding of Pax2Pay
- Launch of enhanced white-label shop for the airline management business (interface used by travellers to book seats, meals, extra luggage etc), incl. improved pricing and direct marketing tools
- Cost saving programme and strategy shift with respect to web-scraping in aggregation business executed
- Update of customer contracts to optimize working capital
- Paxport Group UK was first aggregator to sign distribution agreement with Ryanair when they allowed third-party distribution in 2024
- Application made for EU E-money license with its base of operations in Lithuania
- Investment in Polish PNR Go (40% ownership) to strengthen PNRGOV reporting management offering signed (closed in Q1 2025)

Note: See previous quarterly reports for additional details on completed initiatives

Nya Energihem Overview

Company Overview

- Nya Energihem (www.energihem.com) is a turn-key solar panel, battery and energy-efficient window installations business. Bragnum Invest acquired selected parts from the predecessor's bankruptcy estate after it had gone bankrupt in early December 2022. Prior to the bankruptcy, the business expanded too quickly without strong management or cost controls. Delays in material deliveries worsened liquidity issues, and a lack of focus led to losses on adjacent products like roofing solutions
- Bragnum Invest assessed the core business to be attractive and that the operations could be significantly improved. The assets and primary parts of the operations from the bankruptcy estate was acquired through the newly established company Nya Energihem Norden AB. As a part of the transaction, the Company took over c. 50 employees, a significant order backlog of c. 300 customer orders and debt of SEK 14.0m from Nordea. The Nordea debt is a five-year loan facility with no amortization and no covenants
- Bragnum Invest initially acquired 90.1% of Nya Energihem AB with the founder owning 9.9% and being passive. The founder was recruited back to the Company in September 2023 and his ownership was increased to 29.9%. The ownership has also been broadened to include further management and board members, reducing Bragnum Invest's ownership stake to 63.6%

Key Facts

Investment	Nya Energihem (www.energihem.com)
Holding company	Nya Energihem Norden AB

Note: Adjustments in 2023 relate to the company taking on an order book with (i) outdated prices and (ii) prepayments made to the bankruptcy estate
Adjustments in 2024 represent a new cost base following further restructuring implemented in Q4 2024
Adjustment in 2025 represent layoffs, one-off costs for systems less profits from sale of assets

Commentary

- Nya Energihem generated revenue of SEK 23.0m (SEK 13.5m prior year) and adjusted EBITA of SEK -1,0m (SEK -3.1m prior year). LTM Adjusted EBITA was SEK -0,1m
- The Company is still in a turnaround stage as the market for solar panels to private households remains challenging on the back of high interest rates and general weak economy
- The Company has focused more on the energy storage/batteries segment and continue to increase and train its salesforce. Revenue increased in Q1 (however Q1 2024 was very low due to reduced tax breaks) but was somewhat lower than expected due to issues with the supply of batteries at the beginning of the quarter
- The Company implemented a cost savings program in Q4 2024 to further reduce the fixed cost base and increase gross margins, which had full effect in March 2025
- Nya Energihem had a net debt position of SEK 16.9m at 31 March 2025 (without any financial covenants until 2027)

Nya Energihem Actions

Selected Ongoing Initiatives	Selected Completed Initiatives

Selected Ongoing Initiatives

- Further strengthening of sales organization in size and quality
- Improvement of the training programme for the sales force
- Development of packaged subscription services to the installed base of solar panels
- Recruitment of more experienced sales people
- Finding new suppliers and products to improve the product proposition and gross margins

Selected Completed Initiatives

- Introduction of a new pricing model, digital project planning system and digital sales system to simplify sales and improve customer communication
- Strengthening of sales organization to increase sales and reduce cancellation rates, including recruiting back founder as head of sales
- Improved terms and supply of solar panels from several suppliers
- Implemented KPIs for monitoring and improving the efficiency in the sales to delivery process
- Agreed new terms for customer financing
- Broadening of the product and service offering into adjacent areas to improve the value proposition towards customers including batteries
- Execution of cost saving programme reducing fixed costs significantly
- Establishment of JV expanding the sales channels into telemarketing under separate brand as a complement to direct sales
- Implement cost savings to lower the fixed cost base and improve gross margin (last programme had full effect in March 2025)

Note: See previous quarterly reports for additional details on completed initiatives

Vinga Overview

Company Overview

- Vinga Nordic is a buy and build investment within the technical consulting industry focusing on profitable and resilient market niches. Viaq (www.viaq.se) was acquired in June 2023 followed by Karlanders (www.karlanders.se) in August 2023. In February 2024, Vinga Nordic established the greenfield ViaDesign (www.viadesign.se) with the aim to grow rapidly within land design. All these companies are active within the infrastructure space being regional leaders in western Sweden. In May 2024, Vinga Nordic closed the acquisitions of Aenigma (www.aenigma.se) and Idhammar (www.idhammar.se). Aenigma is focusing on the industry, energy, infrastructure and asset management segments, whereas Idhammar offers training and senior consulting services mainly within asset management
- The technical consultancy market is large and very fragmented. We expect the market segments in which Vinga Nordic operates to remain strong over the coming years supported by new government initiatives and industrial investments. The aim is to create a leading technical consultancy group through acquisitions and greenfield establishments and that the combined group will reach revenue of over SEK 1bn with strong profitability
- Bragnum Invest owns and controls 75% of Vinginvest AB with a group of co-founders with strong industry expertise and networks owning 25%. Vinginvest AB owns 64.4% of Vinga Nordic Holding AB and the remaining shares of this entity are owned by the board, management and key employees

Key Facts

Investment	Vinga Nordic Holding AB (www.vinganordic.se)
Holding company	Vinginvest AB
Date of investment	14 June 2023

Leverage	2,3x	0,1x	2,3x	1,0x	2,1x	(0,2)x	(2,5)x

Note: Unaudited figures
YTD, LTM and 12 months figures for 2023 & 2024 are pro-forma for acquisitions made until each respective period-end
Adjustments YTD, LTM and 2024 mainly refers to exit bonuses in Aenigma/Idhammar and change of IT/ERP systems
Net Debt excl. earn-outs in Karlanders (max. SEK 7m payable at exit) and Aenigma/Idhammar (max. SEK 20m payable in Q2 2027)

Commentary

- Revenue increased in Q1 to SEK 88.8m (SEK 36.4m prior year) driven by the acquisition of Aenigma/Idhammar and greenfield start-ups. Adjusted EBITA for the same period was SEK 8.8m (SEK 6.8m)
- LTM adj. EBITA was SEK 29.2m, down from SEK 31.6m compared to prior quarter, mainly due to green-fields in start-up phase (SEK -1,2m) and weaker delivery in two subsidiaries
- The net debt was 69.3m at 31 March 2025 impacted by temporarily high working capital
- Vinga experiences a toughening market with increased competition, pressure on pricing and, in certain niches, weaker demand
- Two new greenfield start-ups were established during Q1: one in the occupational health & safety space (Proak) and one within project management services of infrastructure and construction projects (Genuin)
- In the short and medium term, the current three start-ups will negatively impact the group's profitability, as we initially will prioritize growth (including recruiting) over profitability in these greenfield start-ups

Vinga Actions

Selected Ongoing Initiatives

- Several add on discussions
- Several greenfield establishment discussions
- Profit enhancement actions in poor performing business unit in Aenigma
- Overview of central costs in Aenigma

Selected Completed Initiatives

- Set-up of legal and organisational structure for the buy and build platform
- Acquisition of Viaq (June 2023), Karlanders (August 2023) and Aenigma/Idhammar (May 2024)
- Establishment of greenfield start-ups ViaDesign (February 2024), Proak AB (February 2025) and Genuin Projektutveckling (March 2025)
- Bank financing, cash pooling and overdraft facility in place
- New website for the Vinga Nordic launched
- Management incentive program for key employees implemented
- Recruitment of group CEO and group controller
- CEO succession in Aenigma

Note: See previous quarterly reports for additional details on completed initiatives

13e Protein Import Overview

Company Overview

- 13:e Protein Import (www.13protein.com) is a leading white label producer (c. 90% of sales) of sport and lifestyle nutrition (powders, supplements and functional drinks) in the Nordics and Italy. The Company also sells products under its own brand SELF Omninutrition (c. 10% of sales)
- 13:e Protein Import controls a large part of the value chain and controls most recipes making a switch to an alternative supplier more difficult for the customer. This, as well as a flexible and efficient production capacity are key strengths and enables the Company to develop innovative products with short time-to-market and provide deliveries also in small batches
- Bragnum Invest invested SEK 82.3m in CH Platform Holding AB alongside a co-investment of SEK 50m, together acquiring a 50.1% ownership in 13:e Protein Import HoldCo AB (capital and votes) at an enterprise valuation of SEK 600m. SEK 90.8m of the consideration for the shares was financed through a vendor loan from the selling shareholders (fully amortised in Q4 2024). Key founder and CEO Andrea Falciani retains a c. 27% ownership post-transaction and a management incentive programme has been put in place

Key Facts

Investment	13:e Protein Import
Holding company	CH Platform Holding AB
Date of investment	15 September 2023
Bragnum Invest cost of investment	SEK 85.7m
Bragnum Invest valuation of investment	SEK 192.7m / 2.25x MOIC
Bragnum Invest ownership	31.3% of common and 31.3% of preference shares
Other shareholders	Co-founders and management 33.9% of common and 33.9% of preference shares Co-investor NORD Holding 18.8% of common and 18.8% of preference shares (managed by Bragnum) Armada 16.0% of common and 16.0% of preference shares
CEO	Andrea Falciani
COB	Christopher Fägerskiöld
Bragnum Invest board members	Christer Wiberg, Lars Österberg
Bragnum Invest person in charge	Christer Wiberg

Leverage	2,1x	1,9x	2,1x	1,6x	2,2x	2,2x	2,6x

Note: Unaudited figures.
The acquisition of Deleo in November 2023 was reversed in May 2024 hence Deleo is excluded from all numbers above
Net debt figures included vendor loan between the founders and Bragnum's co-investment vehicle until Q3 2024 (amortised 20 December 2024)

Commentary

- The Company continued to grow in Q1 with revenue up 8.2% compared to same period last year. EBITA in Q1 2025 was SEK 30.6m (SEK 41.4m prior year) as the margins fell back to more normal levels. LTM EBITA was 120.3m compared to SEK 131.7m in 2024. The cash flow has been strong in the quarter and the net debt position on 31 March 2025 was SEK 263.1m (2.1x)
- The continued growth comes primarily from functional drinks as well as capsules and pills. The underlying market in these segments is growing and the Company continues to target customers outside Sweden. Approximately 40% of revenue now stem from customers outside Sweden
- Gross margins were exceptionally high in Q1 and margins have since decreased due to increased raw material prices and negative currency impacts
- The Company is currently investing in an increased and more efficient production. A new PET-line is being installed and the second can-line is scaled up in the functional drinks segment. The production of capsules and pills has moved to a new site in Q1 2025. These investments enables further growth but negatively impacted the financial performance in Q1 2025

13e Protein Import Actions

Selected Ongoing Initiatives

- Work to improve financial control and reporting
- Strengthening of the organisation and the management team
- Installation of a PET line
- Further development of the sales organisation
- Relocation of the tablets and capsules business to a facility next to the main 13e facility in Länna, south of Stockholm
- Investment in new cooling equipment and more efficient water access for the drinks production

Selected Completed Initiatives

- Purchase of a bakery machine for gluten free products from the bankruptcy estate of Wallins Mat to expand the capabilities within the subsidiary Mixwell (completed 22 September 2023)
- Extended financing to cover the acquisitions of Deleo and an additional production line for canned drinks
- Reversal of the acquisition of Deleo AB, a white label producer of drinks in PET-bottles based outside Stockholm to broaden the production capabilities (completed 22 November 2023 and reversed 29 May 2024)
- Acquisition of a new production line for drinks in cans to increase the current capacity and reduce risk of production stops
- Refinancing with Norion Bank (existing bank) and dividend of SEK 100.0m in June 2024, of which Bragnum's share was used to amortise on the Vendor loan
- Increased production permission for the drinks production
- Dividend of SEK 92.5m in December 2024. This together with a loan from Bragnum Invest of SEK 3.4m enabled CH Platform to fully amortise its vendor loan in December 2024

Note: See previous quarterly reports for additional details on completed initiatives
