

Q2 2025

Motive Capital Fund 1

Disclaimers

The information contained in this letter (this “Letter”) is provided for informational and discussion purposes only and is not, and may not be relied on in any manner as legal, tax or investment advice or as an offer to sell, or a solicitation of an offer to buy, any securities in any investment vehicle managed by Motive (as defined below). Any such offer will only be made pursuant to the offering documents of any such investment vehicle.

The information contained herein must be kept strictly confidential and may not be reproduced or redistributed to any person in any format without the approval of Motive Capital Management, LLC (“MCM” and together with its affiliates, “Motive” or “Motive Partners”). As a condition to receiving this Letter, each recipient hereof is deemed to have agreed (i) not to reproduce or distribute the information contained herein, in whole or in part, except to any employee, agent or representative directly concerned with the recipient’s relationship with Motive, who agrees to be bound by this paragraph, (ii) to return this Letter to Motive or destroy it promptly upon request and (iii) to be responsible for any disclosure of this Letter, by such person or any of its employees, agents or representatives. In addition, each person who has accessed, or received a copy of, this Letter (or any part thereof) is deemed to have (i) made a representation to Motive that the recipient is not subject to the U.S. Freedom of Information Act (“FOIA”) or any similar public information law/regulation requiring disclosure of this Letter and (ii) agreed with Motive that it will fully cooperate in the event that this Letter does become subject to FOIA (or similar legislation) to preserve the confidentiality of the information contained herein to the maximum extent permitted under applicable law.

This Letter contains references to “Industry Partners”, and the experience of several Industry Partners is highlighted prevalently herein. Industry Partners serve as independent consultants to Motive and may provide assistance developing new investment opportunities, assisting with commercial due diligence related to investment opportunities, and providing additional consulting services. Industry Partners are not full-

time Motive employees and are not part of the management team charged with making investment decisions on behalf of Motive. Any compensation paid to Industry Partners will not reduce or offset any management fees payable by any fund advised by Motive. Please see page 34 for important disclosures regarding the amount of compensation paid to Industry Partners.

This Letter contains references to “Motive Create”, which is an affiliate of Motive that retains employees and consultants to provide specialized operational, advisory, technology, development and technical support services and similar or related specialized services to Motive Create’s clients (which may include funds advised by Motive and certain portfolio companies of funds advised by Motive (“Affiliated Clients”)). For any Affiliated Clients which so contract with Motive Create, Motive Create will be entitled to fees for its services that are separate and apart from the management fee and carried interest to any funds advised by Motive, and will not reduce any management fees payable by any fund advised by Motive. Such fees will be charged in accordance with the relevant governing documents of Motive Capital Fund I (“MCF1”) and will generally be at rates not in excess of rates for which substantially equivalent services could have been obtained from an unaffiliated third party. If the affiliation between Motive Create and Motive is terminated (through the sale, transfer or dissolution of Motive Create or otherwise), MCF1 and MCF2 will no longer benefit from the competitive advantage (if any) provided by Motive Create and any services provided to any Affiliated Clients by Motive Create may need to be provided instead by third parties, potentially at an increased cost to such Affiliated Clients. In addition, there can be no assurance that any individual professional retained by Motive Create will continue to be affiliated with Motive Create throughout the term of MCF1 or that replacements, if any, will perform well. The ability to recruit, retain and motivate such professionals is dependent on the ability of Motive Create to offer attractive incentive opportunities. The loss of the services of one or more

professionals retained by Motive Create could have a material adverse effect on MCF1.

Any projected return information referenced in this Letter (the "Return Information") is based on (i) either publicly available information or (ii) Motive's belief about the returns that may be achievable on investments made or to be made by MCF1 in light of the team's experience with similar investments historically, its view of the current market conditions, availability of financing and certain assumptions about investing conditions and market fluctuation or recovery, in each case, as of the date of preparation of this Letter and not as of any future date. There is no guarantee that the facts on which such assumptions are based will materialize as anticipated and will be applicable to MCF1's investments or that the returns shown in the Return Information will be achieved. Neither Motive nor any of its representatives has made or makes any representation to any recipient hereof regarding the Return Information and none of them intends to update or otherwise revise the Return Information, even in the event that any or all of the assumptions underlying the Return Information are later shown to be incorrect.

Certain information contained in this Letter constitutes "forward- looking statements," which can be identified by the use of forward- looking terminology such as "may," "will," "should," "expect," "anticipate," "target," "project," "estimate," "intend," "continue" or "believe," or the negatives thereof or other variations thereon or comparable terminology. Due to various risks and uncertainties, actual events or results or the actual performance of MCF1 may differ materially from those reflected or contemplated in such forward-looking statements.

Past performance is not indicative of future results.

September 29, 2025

Dear Limited Partners,

I am pleased to provide you with an update on Motive Capital Fund 1 (“MCF1” or the “Fund”) for the quarter ending June 30, 2025. This letter will cover recent market trends and fund performance during the quarter as well as material events that occurred post-year end.

MARKET UPDATE

Global markets shake off early turbulence in Q2 2025 as earnings remain resilient and inflation cools

While Q2 2025 began with significant economic turbulence following the market shock after Liberation Day, markets ended the quarter on solid footing. This period also marked the first U.S. earnings season under the new tariff regime, and early estimates point to continued resilience. S&P 500 earnings growth is projected to be 11.8% for Q2, only slightly slower than the 13.3% y-o-y increase recorded in Q1 and the index’s third consecutive quarter of double-digit earnings growth.¹ This performance suggests that, despite mounting cost pressures and global uncertainty, many companies are successfully preserving margins, often through ongoing investments in automation and AI.

Inflation continued to cool across both the U.S. and Europe, creating space for central banks to ease monetary policy. Inflation in Europe fell below the European Central Bank’s (“ECB”) 2.0% target for the first time since September 2024, to 1.9%, prompting rate cuts for the second time in 2025.² In the U.S., the Federal Reserve adopted a more cautious stance, announcing its first rate cut since December 2024 with a quarter-percentage-point reduction in Q3 2025. This brought the federal funds rate down to a range of 4.00-4.25%, from the prior 4.25-4.50%, while also signaling the possibility of further cuts ahead.³ The current rate cuts and potential for additional rate decreases could continue to bolster private markets activity as financing costs could become more attractive.

Despite recent challenges within private markets, megadeals and IPO green shoots signal market recalibration

Private equity deal flow eased quarter-on-quarter but remained ahead of last year’s pace. Q2 2025 closed with 4,799 announced and estimated transactions, down 3.9% from Q1 but up 5.0% year-on-year. Year-to-date through Q2, total deal value reached \$987 billion, up 21.4% over the same period in 2024, driven in large part by a resurgence in megadeals.⁴ On a transaction-count basis, 9,795 deals were recorded year-to-date, representing a 7.1% year-on-year increase.⁵ Notable

⁴ Source: Pitchbook, US PE Breakdown, July 2025.

⁵ Source: Pitchbook, The Q2 2025 Global PE First Look, August 2025.

transactions in the first half included OpenAI’s landmark \$40 billion capital raise led by SoftBank, which represented the largest private tech funding round on record, Charter Communications’ \$36 billion bid for Cox Communications, and Google’s \$32 billion acquisition of cloud security firm Wiz.

While deal activity was strong, the environment for exits continued to be subdued as deal value and counts remained below the pre-pandemic quarterly averages. However, after years of relative inactivity, the IPO market is showing signs of sustained momentum. The first half of 2025 recorded a 7% year-on-year increase in new issuances, with a total of 499 deals, including 168 IPOs. The largest IPO of the period came from Venture Global, Inc., raising \$1.8 billion in January. Three other technology issuers each surpassed the \$1 billion mark: Circle Internet Group, Inc., a global fintech specializing in blockchain-based payments and issuer of the USDC stablecoin, raised \$1.2 billion; CoreWeave, Inc., a leading AI cloud infrastructure provider backed by NVIDIA, raised \$1.6 billion; and SailPoint, Inc., a cybersecurity leader in identity and access management, raised \$1.4 billion as it returned to public markets. Together, these offerings reflect a measured but growing investor appetite for scaled businesses with strong fundamentals, spanning both high-growth technology and more traditional sectors.⁶

⁶ Source: S&P, 2025 U.S. New Issuance Half-Year Recap, July 2025.

While exit volumes remain muted, we believe that the resilience in deal flow and the measured revival of public listings point to potential green shoots and gradually widening liquidity pathways. Within this context, Motive continues to actively evaluate liquidity options for the MCF1 portfolio over the next twelve months that have the potential to deliver strong returns for investors.

Emergence of private wealth as a structural tailwind

Despite recent market volatility, private markets continue to be underpinned by strong structural tailwinds, including notably the democratization of private markets. What was once a domain dominated by institutional capital is now being reshaped by high-net-worth investors, whose allocations are rising steadily because of easier access, more flexible investment structures, and regulatory shifts. Global private market assets under management have already surpassed \$26 trillion across private equity, venture capital, private credit, real estate, and infrastructure, growing at a steady 9% per year.⁷

Historically, individual investors have been underrepresented in these asset classes, with allocations often below 5% (well below the 15-20% levels common among U.S. ultra-high-net-worth investors).⁸ That gap is now beginning to close, supported by annual private wealth AUM growth of 12% within alternatives, with the potential to further accelerate. Regulatory reforms such as ELTIF 2.0 in Europe are opening up previously restricted fund structures to a broader investor base, harmonizing marketing rules, and expanding the range of eligible strategies.

⁷ Source: Moonfare, Why is private wealth turning to private markets, June 2025.

⁸ Source: BCG, Capturing wealth management's \$3 trillion private markets opportunity, March 2025.

A further catalyst in this democratization trend is the Democratizing Access to Alternative Assets for 401(k) Investors executive order issued in August 2025.⁹ Until recently, 401(k) investors' access to private markets through SEC-registered funds, such as Qualified Default Investment Alternatives, was constrained by a regulatory cap that limited allocations to illiquid private assets to no more than 15%. With that restriction now lifted, managers will be able to design retirement funds with more substantial allocations to private equity, private credit, and real estate. Though adoption rates will likely be gradual and fiduciary duty obligations remain, the overall trends within the regulatory environment are expected to enable private markets exposure in 401(k) accounts at scale for the first time over the long-term.

In parallel, a new generation of technology-enabled access models, from digital feeder funds to fully integrated wealth platforms, is lowering minimum investment thresholds, streamlining onboarding, and providing transparent, aggregated reporting. Since 2019, nearly 300 evergreen funds designed for private investors have launched, amassing \$425 billion in assets by 2024 and projected to exceed \$1.1 trillion by 2029.⁹ These developments are transforming private markets from a niche proposition for a narrow segment of investors into a scalable, mainstream allocation within global wealth portfolios.

This evolution aligns squarely with our investment strategy in MCF1, where we have developed a thesis around private markets evolution within the wealth management context and invested in businesses poised to substantially capitalize from secular trends. For example, Wilshire helps bridge the gap between institutions and individual investors by providing institutional-quality research and portfolio construction expertise. These capabilities strengthen the private markets

⁹ Source: Cooley, Private Equity and Venture Capital Investments for 401(k) Plans, August 2025.

ecosystem and can support technology-enabled distribution, allowing investors to incorporate alternatives more effectively at the point of advice. In parallel, InvestCloud's PMA enables wealth managers to integrate private-market products into client portfolios at scale. In our view, these businesses, alongside other Motive portfolio companies, are not simply participants in this long-term shift within the industry but are critical enablers that are well-placed to capture disproportionate value as private wealth becomes a growing pillar within private markets.

PORTFOLIO UPDATE

The MCF1 portfolio has continued to demonstrate resilience across cycles, including during the recent period of market volatility. In the twelve months LTM to June 2025, revenue grew by 41.7%, while EBITDA growth accelerated to 28.9%. This performance, driven in large part by Insurify's scaling success and commercial momentum, reflects stable top-line expansion alongside a meaningful improvement in profitability, underscoring the strength of the underlying businesses and the effectiveness of Motive's hands-on approach to value creation.

This progress reflects not only the efforts of the management teams but also the embedded role of Motive Operators under our IOI model, with Jeff Yabuki at InvestCloud, Andrew Tarver at InvestCloud's PMA and Andy Stewart at Wilshire (to name a few), driving transformation agendas and ensuring disciplined execution within their respective companies.

We continue to pursue value creation through a twofold strategy of organic and acquisitive growth, while actively exploring potential liquidity events to deliver optimal outcomes for our Limited Partners. During the quarter, key value creation initiatives included:

- **Wilshire:** Acquired ParkLexington Advisors, adding differentiated data and analytics capabilities that deepened its cost-optimization franchise. A concurrent refinancing enhanced financial flexibility to support further growth.
- **lpa:** Expanded its platform with the acquisition of Derivatives Data Service (DDS), strengthening its derivatives capabilities and unlocking cross-sell opportunities. In addition, LPA acquired the remaining stake in Zertifikatefabrik (part of the 2019 EffCom acquisition), simplifying its ownership structure and enhancing product integration.
- **Insurify:** Advanced value creation through AI-enabled personalization, product diversification, and channel expansion. These initiatives continued to drive growth, with Q2 revenue up 140% year-over-year.

While our focus for the quarter was on executing value creation plans, we continued to invest MCF1 capital selectively, targeting bolt-on opportunities where we see strong strategic fit and attractive return potential. This included a \$7.1M (€6.5M) investment in lpa to support its two acquisitions.

EVENTS POST QUARTER-END

lpa: Completed the spin-off of its consulting division into Magpie Projects (“Magpie”), an independent consultancy with 75+ professionals in Frankfurt and Zurich. Led by Peter Schurau, Magpie will advise clients on regulatory change, digital transformation, ESG integration, and the convergence of public and private markets. The separation provides Magpie with strategic independence while maintaining links to the lpa ecosystem.

The software business remains within lpa, with a compelling equity story as a dedicated capital markets technology provider.

FIRM UPDATE

Motive Ventures Fund II held its first close with more than \$80M in commitments, representing over 40% of its \$200M target, anchored by ABN AMRO and Apollo. This milestone reflects the ongoing ability of the team to continue delivering top-quartile performance and highlights the benefits that the Motive ecosystem can bring to investors. The recent commercial partnership between InvestCloud and Motive Ventures’ AI-focused company Zocks – bringing next-generation client engagement solutions to InvestCloud’s wealth management platform – serves as a tangible

example of the synergies across our strategies and the significant value potential these connections can unlock. We look forward to sharing further updates as these relationships continue to develop.

CLOSING

As always, we would like to thank you for your continued support and partnership. If you have any questions or would like to discuss the abovementioned points in more detail, please do not hesitate to reach out to me and the team at ir@motivepartners.com.

Sincerely,

Bob Brown

Founding Partner

Motive Capital Fund 1 performance

DETAILED TRACK RECORD: MCF1 PORTFOLIO INVESTMENTS HELD AS OF JUNE 30, 2025 ¹⁰

Investment performance, including return information, is presented herein as of June 30, 2025, based on Motive's good faith estimates.

(\$ millions)	Inv. year	MCF1 cost ^A	Realized value	Unrealized value	Total value	Gross IRR	Gross MOIC
Realized							
LMRKTS ^B	2016 / 2018	\$11.0	\$8.3	-	\$8.3	(8.7%)	0.8x
Avaloq ^C	2017 / 2018	\$15.3	\$44.0	-	\$44.0	54.6%	2.9x
Dun & Bradstreet	2019	\$62.8	\$192.9	-	\$192.9	77.8%	3.1x
Global Shares	2018	\$25.2	\$240.9	-	\$240.9	88.4%	9.6x
Sub-total – realized		\$114.3	\$486.1	-	\$486.1	71.1%	4.3x
Unrealized							
LPA ^D	2018	\$33.9	-	\$85.6	\$85.6	18.6%	2.5x
InvestCloud ^E	2021	\$130.9	-	\$230.6	\$230.6	11.2%	1.8x
Wilshire	2021	\$65.6	-	\$115.5	\$115.5	14.9%	1.8x
Insurify	2021	\$25.0	-	\$49.5	\$49.5	19.2%	2.0x
Sub-total – unrealized		\$255.4	-	\$481.2	\$481.2	13.8%	1.9x

SPAC							
Forge Global ^F	2020	\$50.4	\$0.0	\$9.4	\$9.4	(39.3%)	0.2x
Sub-total – SPAC		\$50.4	\$0.0	\$9.4	\$9.4	(39.3%)	0.2x
Total		\$420.1	\$486.1	\$490.6	\$976.7	32.1%	2.3x
Net lev. IRR / net lev. MOIC						23.0%	1.8x
Net unlev. IRR / net unlev. MOIC						20.2%	1.8x
Remaining capital (unallocated capital + expenses)		\$65.0					
Total (incl. reserved & remaining capital)		\$485.1					

¹⁰ Information is as of June 30, 2025, unless otherwise stated, and has not been updated to reflect any changes that have occurred since such date. Except as otherwise disclosed herein, the Net Unlevered MOIC is equal to the Net Levered MOIC for a portfolio company or vehicle, as applicable.

Detailed track record notes

Past performance is not indicative of future results and there can be no assurance that any Motive sponsored investment vehicle (each, a "Motive Fund") will achieve comparable results or be able to avoid losses.

MCF1 performance footnotes

The performance information is presented as of June 30, 2025.

- A. Includes amounts borrowed under MCF1's subscription-backed credit facility.
- B. Motive Partners invested \$4.1M and Stephen C. Daffron separately invested \$1.9M into LMRKTS. In August 2018, Motive Partners and Mr. Daffron transferred their interests in LMRKTS at cost to MCF1 as a warehoused investment pursuant to the terms of MCF1's partnership agreement. On December 28, 2018, MCF1 acquired \$5M in additional shares. LMRKTS closed on an agreement to be acquired by a sizeable strategic buyer, marking MCF1's third exit.
- C. Avaloq was held as a warehoused investment by Motive Partners prior to January 11, 2018, at which point it was transferred to MCF1 at cost.
- D. MCF1's investment in LPA was structured in the form of a 50% upfront cash consideration and 50% deferred payment based on exceeding certain financial thresholds between 2021-2023. LPA's financial performance allowed the shareholders to achieve €9.8M (\$10.5M) of their revenue-based earn-out. Motive provided a €4.8M (\$5.1M) bridge loan through MCF1 to fund a portion of this earn-out. This bridge loan has been included in the current MCF1 Investment Cost and is included in the calculation of Gross and Net MOIC and IRR, respectively.
- E. The investment in InvestCloud signed and closed in Q1 2021 and encompassed a \$100M investment from MCF2 and the contribution of MCF1 portfolio companies Finantix and Tegra118, at a combined value of \$160M (based on a 1.4x valuation supported by a fairness analysis provided by Duff & Phelps, LLC), to an integrated Wealth Technology platform that is under the InvestCloud brand. InvestCloud has been reflected here at the original combined cost of Tegra118 and Finantix.
- F. The performance information of Forge Global set forth herein is as of June 30, 2025, and reflects an estimated valuation as of such date. Motive values MCF1's investment in Forge Global based on the stock price as of the last day of the valuation period and does not value Forge Global holistically as it is a public company. In 2Q22, Forge announced it would redeem all of the public warrants (including Motive's FPA warrants) on July 11, 2022. 11% of the public warrants outstanding were exercised by Forge Global and generated cash proceeds of approximately \$22.9M to the company. Motive's FPA warrants were redeemed in connection with such redemption, which resulted in aggregate proceeds of \$46,666.64.

Performance endnotes

- 1. Information is as of June 30, 2025, unless otherwise stated, and has not been updated to reflect any changes that have occurred since such date. In considering any performance data contained herein, prospective investors should bear in mind that neither past nor projected performance is indicative of future results and there can be no assurance that MCF1 or any other Motive Fund will achieve comparable results or be able to avoid losses.
- 2. "MOIC" or "multiple on invested capital" represents total realized proceeds from a Motive Fund's portfolio investments to such Motive Fund plus the Unrealized Values (as defined below) of such Motive Fund's investments divided by total contributed capital. MOIC for investments with an Unrealized Value have been calculated by assuming that the remaining interest has been sold at such Unrealized Value as of June 30, 2025, unless otherwise stated. MOICs presented are not indicative of the Motive Funds' future performance and there can be no assurance that future Motive Funds will achieve comparable MOICs.
- 3. "Gross MOIC" does not take into consideration the impact of any management fees, carried interest or certain fund-level expenses, which in the aggregate are expected to be substantial in the case of the Motive Funds and would reduce the Gross MOIC presented.
- 4. "IRR" or "internal rate of return" is a measure of the discounted cash flows (inflows and outflows) related to the limited partners' investment in a Motive Fund since inception. IRR calculations take into account the time span during which an investment return is generated, and short time spans between investments and realizations can create outsized IRR results. IRR calculations do not reflect the deduction of taxes and are calculated on the basis of daily investment inflows and outflows. IRR for investments with an Unrealized Value have been calculated by assuming that the remaining interest has been sold at such Unrealized Value as of June 30, 2025, unless stated otherwise. IRR is the discount rate at which (1) the present value of all capital invested in an investment is equal to (2) the present value of all returns from the investment (whether or not realized). IRRs presented are not indicative of the Motive Funds' future performance and there can be no assurance that future Motive Funds will achieve comparable IRRs.
- 5. "Gross IRR" or "Gross Returns" represents a measure of the investment returns. Gross IRR does not take into consideration the impact of any management fees, carried interest or certain fund-level expenses, which in the aggregate are expected to be substantial in the case of the Motive Funds and would reduce the Gross IRR presented. In addition, Gross IRR is shown on an unlevered basis and uses the original date of investment by a Motive Fund and does not take into account fund-level leverage utilized by such Motive Fund in advance or in lieu of capital contributions. Such fund-level leverage can result in higher calculations of returns since these calculations generally depend on the amount and timing of capital contributions by limited partners. Distributions are included gross of any carried interest using the date which a Motive Fund received the distribution.

6. “Net Levered MOIC” (or “Net Lev. MOIC”), “Net Unlevered MOIC” (or “Net Unlev. IRR”), “Net Levered IRR” (or “Net Lev. IRR”) and “Net Unlevered IRR” (or “Net Unlev. IRR”) take into consideration the impact of all fund-level expenses, including management fees, and carried interest. The fund level Net Levered IRR and fund level Net Unlevered IRR is calculated from the aggregate net cash flows across all LPs in each respective Motive fund. The fund level Net Levered MOIC and Net Levered IRR take into account fund-level leverage utilized by such Motive Fund in advance or in lieu of capital contributions and the fund level Net Unlevered MOIC and Net Unlevered IRR do not take such fund-level leverage into account. Individual LP net IRR and net MOIC performance may differ from the aggregate net performance due to economics and close timing. Distributions are included net of carried interest (where appropriate) where the distribution date is the date which a Motive Fund makes the distribution to the limited partners.
7. “Realized Value” means the amount of sales proceeds actually received by a Motive Fund with respect to an investment as of June 30, 2025, unless stated otherwise. “Unrealized Value” means the value of an unrealized investment or the unrealized portion of a partially realized investment as of June 30, 2025, unless stated otherwise, based on Motive Partners’ good faith estimates, except as otherwise noted herein. The actual realized value of unrealized or partially realized investments will depend on various factors, including future operating results, market conditions at the time of disposition, any related transaction costs and the timing and manner of disposition, all of which may differ materially from the assumptions and circumstances on which Unrealized Value is based. Accordingly, there can be no assurance that unrealized or partially realized investments will be realized at the “Unrealized Value,” including the valuation used to calculate the Gross IRR and Gross MOIC presented or that investors will be able to avoid losses, including a total loss of their investment. “Total Value” means the sum of Realized Value and Unrealized Value.

Forge

COMPANY OVERVIEW

Founded in 2014, Forge Global Holdings, Inc. (“Forge Global” or “Forge”) (NYSE: FRGE) is a provider of marketplace infrastructure, data services and technology solutions for private market participants. Forge Global strives to power an accessible, liquid and transparent private equity marketplace, to serve the increasingly complex needs of the private market ecosystem by forging new connections through technology, data and expertise.

TRANSACTION OVERVIEW

On March 22, 2022, Motive announced that the business combination of Forge Global and Motive Capital Corp, a special purpose acquisition company sponsored by

affiliates of Motive Partners (together, the “Combined Company”), had been completed (the “Combination”).

The Combination provided ~\$216M of gross proceeds to the Combined Company, prior to the payment of transaction expenses, including the contribution of cash raised from the initial public offering of Motive Capital Corp in December 2020, net of redemptions, as well as a Forward Purchase Agreement (“FPA”) from Motive Capital Funds Sponsor LLC and PIPE financing.

MOTIVE BOARD REPRESENTATION

Ashwin Kumar, Motive Industry Partner

6. Based on entry enterprise value reflecting 169M shares at entry and \$6.50 share price at the time of de-SPAC, net debt balance at closing, and \$61.9M transaction fees.

UPDATE FOR Q2 2025

Investment

- No update from this quarter

Strategy

- The company remains on track for adjusted EBITDA breakeven by 2026, balancing strategic investments with disciplined cost control
- Forge continues to focus on building out the private markets ecosystem to capitalize on the attractive opportunity
- In July 2025, Forge completed its previously announced 100% acquisition of Accuidity Capital Management. The acquisition of Accuidity adds an additional \$220 million in AUM, representing a positive step forward in the development of Forge's broader wealth and asset management strategy, and the business adds \$6 million in revenue

Commercial

- Trading volume 1H 2025 increased to \$1.4 billion up 110% year-over-year, exceeding full year 2024 trading volume

Product ¹¹

- In June 2025, Forge launched the Next Generation Marketplace, through which Forge surfaces actionable pricing intelligence including historic pricing insights and current bids and asks so participants gain real-time view of the market in each company
- In June 2025, Forge formed a partnership with Fortune Media to launch a new series of lists and rankings dedicated to the private market, powered by proprietary private market data from Forge

Talent

- No material update in this quarter

Motive Create / Technology

- No material updates in the quarter

Financials ¹²

- Revenue: \$27.6M in Q2 2025, increasing by 25% compared to Q2 2024
- EBITDA: (\$5.4M) in Q2 2025, an increase over (\$7.9M) in Q2 2024

	QUARTERLY RESULTS	
MILLIONS	Q2 2024	Q2 2025

Insurify

COMPANY OVERVIEW

Founded in 2013, Insurify is a digital insurance distribution business with a price comparison website, which is pivoting from primarily being a referral provider to becoming a digital broker on behalf of insurance carriers. The company focuses on creating a price comparison experience for consumers shopping for insurance. Insurify endeavors to act as a digital broker when possible or refer the consumer to a carrier and be paid on a pay-per-click basis.

TRANSACTION OVERVIEW

MCF1 and MCF2 completed a \$50M Series B investment in Insurify, alongside Viola Ventures, which also made a \$50M investment. Motive's \$50M investment represented 8.3% ownership and is equally split across MCF1 and MCF2. Motive's fully-diluted stake today is 7.5% due to planned issuances of employee options.

MOTIVE BOARD REPRESENTATION

James O'Neill, Motive Advisor

UPDATE FOR Q2 2025

Investment

- Insurify sustained strong momentum in Q2 2025, generating \$114.7 million of revenue (up 140% compared Q2 2024) and \$5.7 million of EBITDA (5.0% margin). Quarter-end cash increased to \$82.3 million, providing ample flexibility for continued product investment and opportunistic M&A. Growth remained broad-based, with referral channels still driving the majority of volume and incremental contribution from partnerships, SEO and paid marketing

Strategy ¹³

- Referral channel continues to anchor the model, accounting for ~90 % of quarterly revenue
- The team is expanding beyond core auto with home-insurance flows now live, and Seven, the short-term auto product, moving from a two-state pilot toward additional launches in H2 2025
- AI-driven initiatives – Calculator 2.0, personalized quote flows and automated outreach – continue to be a top focus from the team. Launched projects are sharpening conversion and creating structural operating leverage. Thirty-three AI-originated articles went live in June alone, with ongoing A/B tests against human content
- Insurify continues to monitor the M&A landscape for accretive acquisitions and is focused on expanding its revenue streams and further differentiating its product

Commercial

- While the auto-insurance market continues to rebound, demand across top carriers remains strong, helping offset isolated budget volatility stemming from broader macroeconomic factors such as tariff-driven claims-cost pressures
- The home-insurance funnel is scaling, with three national carriers now live and attach rates rising to 7% – 9% of auto quotes – up from roughly 4% last quarter
- GEICO's nationwide launch on Compare.com in May has surpassed 2,000 bound policies per week and is

generating policy-sale growth of more than 20% month over month

- The partnership channel has become a meaningful contributor, with more than 60 partners now exceeding \$1,000 in monthly revenue – 38 above \$10,000 and 17 above \$100,000

Product ¹⁴

- Seven, Insurify's short-term auto-insurance product, is now live in two states and is on track to launch in additional geographies over the second half of 2025
- The dual-brand strategy – Insurify for mass-market users and compare.com for rate-sensitive shoppers – continues to segment acquisition effectively and broaden reach across consumer segments
- Investments in AI-driven personalization, including Calculator 2.0, dynamic comparison tables and an expanding library of AI-authored content, are raising quote-to-bind conversion rates and improving pricing efficiency
- Organic traffic is accelerating with non-brand SEO revenue reached \$7.3 million in Q2 2025, up 250 % year over year and 24 % ahead of budget

Talent

- Headcount grew modestly to 196 FTEs (up 3% since Q1 2025), with hires concentrated in engineering and sales productivity roles. Management maintains a disciplined hiring stance aligned with EBITDA and cash-flow goals

Motive Create / Technology ¹⁵

- Insurify and Motive Create are pursuing a broad AI collaboration that spans conversational agents, LLM-driven search optimization and partner integrations
- Further initiatives are under way to embed Insurify's quoting engine within developer platforms and co-develop solutions with existing embedded partners

Financial ¹⁶

- Revenue: \$114.7M in Q2 2025, a 140% increase since Q2 2024

13 There can be no assurance that any of the strategic initiatives described herein will ultimately be successful.

14 There can be no assurance that any of the product initiatives described herein will ultimately be successful.

15 Any fees and expenses related to Specialized Operational Services that are received by Motive Create will not reduce or otherwise offset any

management fees payable by MCF1. Please see the table on page 36 for additional disclosures regarding the fees paid to Motive Create.

16 Please refer to the Detailed Track Record of MCF1, including the notes set forth therein, for a detailed discussion of investment performance.

- EBITDA: \$5.7M in Q2 2025, slightly down from \$7.9M Q2 2024 driven by a decrease in bidding competition from carriers this quarter and higher expenses related to investment in growth

	QUARTERLY RESULTS	
MILLIONS	Q2 2024	Q2 2025

InvestCloud

COMPANY OVERVIEW

Founded in 2010, InvestCloud Inc. ("InvestCloud") is a provider of modular, enterprise-grade digital wealth and investment management software solutions. It focuses on using a cloud-based transformation process to digitize legacy investment management platforms (for asset managers, wealth managers and asset servicers), enabling financial institutions to modernize their platforms. Through Motive's combination of InvestCloud, Tegra118, Finantix and Advicent, InvestCloud strives to offer a complete wealth management technology solution to the financial services industry.

TRANSACTION OVERVIEW

MCF1 and MCF2 completed the acquisition of InvestCloud, alongside funds advised by Clearlake Capital Group, L.P. ("Clearlake"), encompassing an investment of \$100M by MCF2 and the contribution of MCF1 portfolio companies Tegra118 and Finantix at a combined value of \$160M for its stake.

In November 2023, MCF2 and Clearlake provided \$146M of new cash funding to InvestCloud in addition to \$36.3M which was previously provided in Q3 through a bridge financing. InvestCloud plans to use proceeds from the new funding to pay down existing liabilities and fund strategic initiatives and growth. A syndication of \$16.7M to MCF1 closed in Q2 2024 and a syndication to other co-investors closed in Q2 2024.

MOTIVE BOARD REPRESENTATION

Jeff Yabuki, Chief Executive Officer & Chairman, InvestCloud;
 Founding Partner & Chairman, Motive Capital
 Rob Heyvaert, Founder & Managing Partner, Motive Capital
 Scott Kauffman, Founding Partner, Motive Capital
 Richard Lumb, Motive Industry Partner & Former CEO of InvestCloud
 Doug Smith, Motive Industry Partner
 Miguel Tejada, Principal, Motive Capital (Obs.)

Please see the Performance Endnotes for important information.

7. Please see Notes 2 and 3 in the Performance Endnotes for important information.

8. Please see Notes 4 and 5 in the Performance Endnotes for important information.

9. The investment in InvestCloud signed and closed in February 2021 and encompassed a \$100M investment from MCF2 and the contribution of MCF1 portfolio companies Finantix and Tegra118, at a combined value of \$160M (based on a 1.4x valuation supported by a fairness analysis provided by Duff & Phelps, LLC, on an original combined cost of \$114.4M), to a platform branded under InvestCloud. As a result, MCF1's investment was marked at 1.4x the contribution value.

10. Inclusive of Motive-managed co-investment vehicles only. On June 30, 2021, Motive syndicated Fiserv's investment in InvestCloud (deemed non-core) to Motive-managed secondary and co-investors.

11. Entry enterprise value and equity value and associated multiple reflective of the combination of InvestCloud, Tegra118 and Finantix transactions in 2021, and include transaction fees.

12. Current multiple is the current Motive valuation based on Fiscal Year April 30, 2026 revenue.

17 Control investments include transactions in which MCF1 invested as part of an investor consortium and, in such cases, MCF1's investment has been defined as the transaction type characterized by the investment made by the entire consortium.

Investment

- InvestCloud continues to advance its multiyear transformation under CEO Jeff Yabuki, with priorities centered on product standardization, disciplined cost management and innovation across the APL platform, Digital Wealth suite and the Private Market Account (PMA) initiative. A key recent milestone was the opening of a Bangalore engineering and operations hub, which is already accelerating delivery velocity while lowering unit costs
- Commercial momentum is building in parallel. A revitalized go-to-market organization has assembled a high-quality subscription pipeline that exceeds annual targets, and strong client interest in PMA positions InvestCloud to capture private-markets flows when Phase 1 launches in H2 2025
- Management continues to evaluate selective M&A opportunities that could broaden distribution, deepen data-and-analytics capabilities and accelerate roadmap execution, reinforcing InvestCloud's position as the technology partner of choice for wealth and asset managers

Strategy ¹⁸

- InvestCloud's multi-year transformation is centered on simplifying its product architecture and standardizing delivery, creating a scalable platform for long-term growth across both wealth and asset-management client segments
- Within APL, the company is enhancing its core managed-accounts infrastructure while building the Private Market Account (PMA) and PMA Network; Phase 1 remains on track for a second-half-2025 launch, supported by active engagement from APL clients representing more than \$2.5 trillion in AUM
- In Digital Wealth, development is shifting from bespoke projects to modular SmartAX and SmartCX offerings, a move that shortens implementation timelines, expands reach in the RIA and regional-bank channels, and increases recurring-margin potential

- Cost optimization underpins every workstream, with a recent headcount reduction and offshore expansion in India resulting in a refined headcount strategy

Commercial ¹⁹

- The revamped go-to-market organization has built a high-quality subscription pipeline of ~\$80 million, providing ~3x coverage of current ACV targets across APL, Digital Wealth and the PMA Network
- Dedicated APL and Digital Wealth sales teams staffed earlier this year and supported by new BDR/SDR programs have expanded "pre-discovery" opportunities
- Early deal momentum underscores improved execution, with recent wins across APL
- Client interest in the PMA Network remains strong, reflected in an onboarding pipeline that the largest asset managers, wealth managers, and technology-partners

Product ²⁰

- The PMA program remains on schedule, with model-based PMA trading targeted for Q3 2025 and full rebalancing workflows expected in Q4 2025, establishing a clear phased rollout for advisors and asset managers
- The first PMA pilot client went live in March and is already supporting significant PMA accounts demonstrating practical demand and scalability for the solution
- APL modernization is underway through Ops Central and APL Core (RPM), and the new APL-as-a-Service "Concierge" offering combines business-process outsourcing with the platform to broaden the addressable market and improve operating leverage
- In Digital Wealth, two new "Smart" modular products are slated for Q3 launch, adding incremental, repeatable ARR opportunities alongside recently signed distribution partnerships

Talent

- InvestCloud's workforce actions and targeted hires are sharpening focus on growth initiatives while lowering run-rate costs

¹⁸ There can be no assurance that any of the strategic initiatives or M&A activity described herein will ultimately be successful.

¹⁹ There can be no assurance that any of the commercial initiatives described herein will ultimately be successful.

²⁰ There can be no assurance that any of the product initiatives described herein will ultimately be successful.

- The offshoring program has already onboarded 17 Bangalore-based engineers and operations staff, with knowledge-transfer milestones in flight to unlock further savings
- Commercial capacity continues to build: an APL sales leader joined in April, a PMA account executive in May, a new Digital Wealth sales team in March, and a dedicated business-development role in June, complemented by a BDR/SDR pipeline-build initiative

Motive Create / Technology ²¹

- InvestCloud is working with Motive Create to develop AI-powered tools for advisor workflows and operational efficiency along with advisory assistance on PMA development

Financials ²²

- Revenue: \$71.8M in Q2 2025 (Q2 2026 Fiscal Year), approximately flat compared to Q2 2024
- EBITDA: \$20.2M in Q2 2025 (Q2 2026 Fiscal Year), a 63% increase since Q2 2024

LPA

COMPANY OVERVIEW

Founded in 1999, Lucht Probst Associates GmbH (“LPA”) combines capital markets expertise and knowledge to configure software and solutions that help financial institutions make better decisions and automate processes in a way that is globally scalable, reduces cost and ensures regulatory compliance. LPA has built a diverse client base of over 100 financial institutions of European banks, primarily in Germany and Western Europe.

TRANSACTION OVERVIEW

On November 8, 2018, MCF1 acquired a 76.0% stake in LPA at a valuation of €31.7M / \$36.2M, representing a 1.1x LTM September 2018 revenue multiple.²³ MCF1’s investment in LPA was structured in the form of a 50% upfront cash consideration and 50% deferred payment based on exceeding certain financial

thresholds between 2021-2023.⁴ Post-investment, MCF1 syndicated a portion of its investment to a Motive co-investor.

Since investment, LPA has pursued an active M&A strategy including Modelity (October 2019), EffCom (October 2019), Acarda (October 2020) and DDS (April 2025). As a result, Motive increased its investment in LPA to fund a portion of these bolt-on transactions. Based on financial performance through 2021, LPA achieved €9.8M / \$11.2M of its revenue-based earn-out. This took the overall entry enterprise valuation to €41.5M / \$47.4M (1.5x LTM September 2018 revenue multiple).

MOTIVE BOARD REPRESENTATION

Scott Kauffman, Founding Partner, Motive Capital
 Peter Schurau, Motive Industry Partner & Co-CEO of LPA
 Neil Cochrane, Partner, Motive Capital

1. Please see Notes 2 and 3 in the Performance Endnotes for important information.
2. Please see Notes 4 and 5 in the Performance Endnotes for important information.
3. MCF1’s investment in LPA was structured in the form of a 50% upfront cash consideration and 50% deferred payment based on exceeding certain financial thresholds between 2021-2023. LPA’s financial performance allowed the shareholders to achieve €9.8M / \$11.2M of its revenue-based earn-out. Motive provided a €4.8M / \$4.8M bridge loan through MCF1 to fund a portion of this earn-out. This bridge loan was repaid in March 2024 and is therefore excluded in the calculation of Gross MOIC and IRR, respectively.
4. Entry multiple includes the deferred consideration of €9.8M.

²³ Multiple excluding €9.8M earn-out.

²⁴ Control investments include transactions in which MCF1 invested as part of an investor consortium and, in such cases, MCF1’s investment has been defined as

the transaction type characterized by the investment made by the entire consortium.

Investment²⁵

- LPA closed on its 100% acquisition of Derivatives Data Service (“DDS”) in April 2025 and acquired the outstanding minority stake in Zertifikatefabrik, a subsidiary of EffCom, bringing its ownership of the business to 100%. The acquisition of DDS strengthens LPA’s product offering and provides strong cross-sell opportunities. It has been well-received by the clients of both LPA and DDS
- The transactions were funded through a €6.5M Loan Note with 20% PIK interest from MCF1 to LPA
- LPA and Motive continue to jointly evaluate M&A opportunities to support the consolidation of the industry and leverage the benefits of LPA’s scale. LPA is in advanced discussions with a potential target in France

Strategy²⁶

- Management completed the carve-out of the consulting business from the software business at the end of July 2025. The carve-out allows the consulting business (“Magpie”) to reposition as a next-generation financial markets consulting company with a refreshed go-to-market proposition, as well as simplifying LPA software’s equity story
- LPA’s growth strategy and market positioning remain consistent, with the business continuing to focus on profitable growth. Investments in product over the past year have allowed the business to pursue sales opportunities more aggressively
- LPA Software has identified areas for growth in Asset Management and Data and Analytics and will be refining its strategy to more acutely target these growth areas
- The company continues to invest in its software modules (Structured Products, OTC, and Asset Management) to drive product improvements in line with the roadmap, and ultimately long-term sustainable growth

Commercial²⁷

- LPA continues to see strong demand, with clients from competitors proactively approaching them for alternative solutions. The sales team is actively engaging these clients with tailored proposals to displace existing providers
- LPA experienced some churn at the start of July 2025; but maintains a robust sales pipeline of approximately €16M in annualized recurring revenue. Management expects new wins in the second half of 2025 to more than offset churn to date

Product²⁸

- LPA continues to progress along its roadmap around technology consolidation and automation initiatives within its software platform alongside offshoring certain resources to Vietnam

Talent

- LPA hired a new CFO, Dr. Kevin von Gamm who brings significant expertise as a former CFO and COO of software companies and PE-backed companies
- LPA continues to attract experienced individuals in several key roles, notably within the Sales and Data and Analytics teams

Motive Create / Technology²⁹

- Motive Create continues to work with the business to support the product & technology strategy and the evaluation of potential M&A
- Motive Create will be supporting LPA as it refreshes its data strategy in Q3 2025

Financials³⁰

- Revenue: €12.8M in Q2 2025, a 6% increase compared to Q2 2024
- Adjusted EBITDA: €3.2M in Q2 2025, an 83% increase compared to €1.8M in Q2 2024

Wilshire

Wilshire

COMPANY OVERVIEW

Founded in 1972, Wilshire is a leading global financial services firm dedicated to improving outcomes for investors. Wilshire specializes in innovative investment solutions, consulting services, and multi asset analytics, advising on over \$1.5T in assets and managing \$121B in assets. The company serves more than 358 global institutional and intermediary clients from its 11 offices worldwide.

TRANSACTION OVERVIEW

In January 2021, MCF1 and MCF2 completed a \$107.5M investment in Wilshire alongside GIC, CC Capital and other co-investors. From entry to Q1 2024, MCF1 & MCF2

invested an additional ~\$21M into Wilshire through the March 2023 carveout of Indexes and the December 2023 acquisition of Lyxor, and an additional ~\$5M in Q1 2024 as part of the Indexes capital raise post-carveout.³²

5. Motive designated Jason Schwarz, Wilshire's President, as its fourth Board Member.
6. Enterprise and equity value reflect core Wilshire (PF for Analytics divestiture), Lyxor, and Wilshire's stake in Indexes.

32 A syndication from MCF1 to Motive co-investors closed in H1 2025.

33 Control investments include transactions in which MCF1 invested as part of an investor consortium and, in such cases, MCF1's investment has been

defined as the transaction type characterized by the investment made by the entire consortium.

UPDATE FOR Q2 2025

Investment

- Wilshire is executing a disciplined growth plan built around its core Wealth & Retirement, Alternatives, and Data & Analytics franchises. The firm remains well-capitalized following last year's carve-out of the Index business, executed in partnership with the Financial Times and Singapore Exchange, which established Wilshire Indexes as a standalone entity focused on global index expansion
- On July 14, 2025 Wilshire closed the acquisition of ParkLexington Advisors, a high-margin data-and-analytics specialist that complements XTP and strengthens Wilshire's cost-optimization franchise. The transaction was completed in tandem with a comprehensive refinancing that increased the credit facilities to a \$285 million term loan, a \$40 million revolving credit facility, and a \$60 million delayed-draw term loan, providing substantial liquidity for ongoing organic and inorganic initiatives
- Wilshire's Q2 2025 valuation does not yet reflect ParkLexington's contribution because the deal closed after quarter-end; Motive Partners will incorporate the impact in future marks, which are expected to be accretive despite modest dilution from the equity consideration. Management continues to evaluate additional tuck-in opportunities that align with secular growth trends and broaden the firm's distribution reach

Strategy ³⁴

- Wilshire is executing a clear plan to concentrate resources on high-growth, technology-enabled segments – Wealth & Retirement, Alternatives, and Data & Analytics – while widening distribution through both organic expansion and targeted M&A
- The integration roadmap for ParkLexington Advisors is now under way alongside XTP, creating a unified cost-transparency and benchmarking suite that is being positioned for cross-sell to Wilshire's institutional, consulting, and wealth channels. Early client feedback is positive and dedicated sales enablement is in market
- Legacy portfolio rationalization is largely complete: the Lyxor carve-out has been fully absorbed with lower-than-

planned dis-synergies, and the divestiture of the legacy Analytics unit closed ahead of schedule and above valuation expectations

- Cost discipline continues to underpin the strategy. Organizational streamlining, vendor renegotiations, and facilities consolidation implemented in H1 have Wilshire tracking ahead of its 2025 savings targets, enabling reinvestment in product development and go-to-market capacity

Commercial ³⁵

- Wilshire's refreshed go-to-market model is delivering early results, with cross-sell momentum building across institutional, wealth, retirement and alternatives channels as the combined XTP and ParkLexington capabilities gain traction with existing clients
- Growth in Wealth & Retirement remains robust: the firm added approximately 1,700 net new recordkeeper plans in Q2 and captured roughly \$250 million of model-portfolio inflows, supported by expanded RIA relationships and broader recordkeeper penetration
- Alternatives demand continues to grow across its fund-of-funds products, with strong net inflows and additional fund closings expected on the horizon
- Strategic-partner discussions with leading asset managers continue to progress, reinforcing Wilshire's role as a distribution and product-development partner and positioning the firm to capitalise on rising demand for private-market access within both institutional and wealth channels
- Wilshire has missed their EBITDA YTD budget due to a couple key drivers: a miss in new sales and new logo wins within the first half of 2025 and slower ramping of several large clients versus the original budget. The firm is expecting these new sales to come through in Q4 2025 and early 2026

Product ³⁶

- Wilshire is bringing ParkLexington's benchmarking datasets into XTP to create a single fee-analytics platform that can be leveraged across both institutional and wealth channels, broadening the addressable market and reinforcing cross-sell potential

³⁴ There can be no assurance that any of the strategic initiatives or M&A activities described herein will ultimately be successful.

³⁵ There can be no assurance that any of the commercial initiatives or M&A activities described herein will ultimately be successful.

³⁶ There can be no assurance that any of the product initiatives described herein will ultimately be successful.

- The firm continues to expand its model portfolio and fund-of-funds offerings, with recent alternatives launches demonstrating strong early demand and solidifying the product-led growth strategy
- Development roadmaps remain focused on modular, launch-ready solutions that shorten deployment times and open new distribution pathways across wealth, retirement and alternatives franchises

Talent

- Wilshire is selectively adding client-facing talent—most recently a head of institutional business development and several sales hires—to accelerate pipeline conversion in high-growth segments while continuing to redeploy internal resources toward Wealth, Retirement and Alternatives priorities
- Ongoing facilities, vendor and staffing efficiencies keep the firm ahead of its 2025 cost-savings plan, freeing capacity to fund product and distribution initiatives without expanding the overall expense base

Motive Create / Technology ³⁷

- Motive Create is working with the deal team and Wilshire management to conduct diligence on and assess the productization opportunity of a current M&A engagement ³⁸

Financials ³⁹

- Revenue: \$34.0M in Q2 2025 (excluding contribution from the recently divested Analytics division and from ParkLexington Advisors), which is roughly flat compared to Q2 2024
- EBITDA: \$10.2M in Q2 2025, which is a 12% decrease from Q2 2024

	QUARTERLY RESULTS	
MILLIONS	Q2 2024	Q2 2025
Revenue	\$33.9	\$34.0
% growth		0.4%
PF Adj. EBITDA	\$11.5	\$10.2
% margin	34.0%	29.9%
% growth		(11.7%)

Note: All Revenue and Adjusted EBITDA figures are pro forma for the Lyxor and XTP acquisitions and Analytics divestiture. Quarterly Adjusted EBITDA includes identified run-rate cost savings.

³⁷ Any fees and expenses related to Specialized Operational Services that are received by Motive Create will not reduce or otherwise offset any management fees payable by MCF1. Please see the table on page 36 for additional disclosures regarding the fees paid to Motive Create.

³⁸ There can be no assurance that such M&A opportunity will ultimately be consummated.

³⁹ Please refer to the Detailed Track Record of MCF1, including the notes set forth therein, for a detailed discussion of investment performance.

LTM Financials (USD)

Note: Entry LTM Revenue and EBITDA exclude Wilshire Benchmarks; current LTM revenue and EBITDA are pro forma for the Lyxor and XTP acquisitions and Analytics divestiture. LTM Adj. EBITDA includes run-rate savings adjustment for previously-actioned cost initiatives.

Motive Capital Fund 1 aggregated industry partner compensation

Industry Partners may assist in the development of investment opportunities by sourcing, supporting due diligence and supporting the operational and management teams of Motive Fund portfolio companies post consummation. As outlined in Section 3.4(c) of the Motive Capital Fund 1 Limited Partnership Agreement, an Industry Partner may be eligible to receive development fees in the form of cash paid by a Motive Fund or in the form of earn outs, cash or equity incentives directly from a portfolio company (“Development Fees”). Such Development Fees may not exceed one percent (1%) of the enterprise value of the relevant portfolio company without approval of the relevant limited partner advisory committee. To the extent that such Industry Partner provides management services to a portfolio company post consummation, the Industry Partner may also receive a salary, bonus and equity incentive compensation directly from such portfolio company. In addition, MCF1 may reimburse Industry Partners for out-of-pocket expenses incurred with respect to activities relating to due diligence, or the management or monitoring of a portfolio company. As of August 31, 2025, Industry Partner compensation in connection with each portfolio company was less than one percent (1%) of the relevant portfolio company’s enterprise value. If an Industry Partner becomes a full-time member of the portfolio company’s management, any compensation paid thereafter is assumed to be received by the Industry Partner in their capacity as a member of management.

Development Fees are paid in connection with the consummation of the relevant investment and are either (1) included in such investment’s closing costs and allocated among the parties that participated in the investment based on their post-close ownership percentages or (2) paid directly by MCF1, MCF2 and Motive-controlled co-investment vehicles and allocated pro-rata among such vehicles based on invested capital.

As of August 31, 2025, MCF1 has been allocated a life-to-date total of \$4,603,260 of such Development Fees related to MCF1’s portfolio companies, which will not offset MCF1’s management fee. Furthermore, any realized and unrealized value relating to such Industry Partners’ cash compensation and equity interests in MCF1’s portfolio companies is not reflected in such amounts. In addition to such amounts, certain Industry Partners may have a potential ongoing management role in a portfolio company for which they will be compensated directly by such portfolio company. Industry Partners are generally not employees of Motive and neither Motive nor its employees receive any portion of the Development Fees, compensation, or equity interests that may be granted to Industry Partners in connection with a portfolio company. As such, no portion of the fees, compensation, or equity interests received by the Industry Partners reduces the management fee that MCF1 pays to Motive.

MCF1 – aggregated industry partner incentivization

Portfolio company	MCF 1 allocation	MCF 2 allocation	Motive co-invest vehicles allocable amount	Other investors' allocable amount	Total aggregate development fee ¹	LTD annual compensation ²	LTD bonus paid by portfolio company	Total to date (excl. MIP)	Management incentive plan (MIP)

Forge Global	\$166,667	\$333,333	-	-	\$500,000	-	-	\$500,000	Up to 30% of profits ⁴
Wilshire	\$258,104	\$258,104	\$218,791	\$765,000	\$1,500,000	\$540,540	\$2,000,000	\$4,040,540	-
Insurify	\$125,000	\$125,000	-	-	\$250,000	-	-	\$250,000	-

Note:

1. Represents aggregate fees paid to Industry Partners at consummation of investment or post-acquisition M&A activity.

2. Excludes compensation for full-time members of Portfolio Company's management.

3. Includes compensation related to Tegra 118 and Finantix, as they were stand-alone portfolio companies, prior to InvestCloud transaction.

4. Represents net allocation to Industry Partners as a percentage of total equity proceeds of the Portfolio Company, which is the cost borne by the Portfolio Company.

Specialized operational services

MCF1 or its portfolio companies may engage service providers that are affiliates of, or otherwise have a relationship with, the general partner of MCF1 (the "GP"), MCM or their respective Affiliates, including, for the avoidance of doubt, Motive Create or another portfolio company (including portfolio companies of another investment vehicle managed by MCM) (each, a "Specialized Operational Service Provider") to provide Specialized Operational Services (as defined below). Specifically, certain employees and consultants of Specialized Operational Service Providers may provide specialized operational, advisory, diligence, technology, development, technical support and value creation planning (including the establishment, implementation and progress assessment of transformation plans including objectives and periodic reviews of performance against such objectives in certain key areas such as leadership, operations, technology transformation, technology non-functionals (e.g. cyber, performance, penetration testing), market extension, geographic expansion, sales and distribution, pricing strategy, resources, budgets, benefits and operational efficiency) services and related specialized services (collectively, "Service Arrangements") to MCF1 or its portfolio companies. Specialized Operational Service Providers may also sell or license software or product technology ("Licensing Arrangements" and, together with Service Arrangements, "Specialized Operational Services") to MCF1 or its portfolio companies.

Any fees or other compensation paid to the GP, MCM, Motive Create, any portfolio company or any of their respective affiliates in respect of such Specialized Operational Services shall not be shared with any Limited Partner and shall not reduce the Management Fee; provided that, unless otherwise approved by the Limited Partner Advisory Committee, (x) any such fees borne by MCF1 or a portfolio company in connection with Service Arrangements shall be charged at rates not in excess of rates for which substantially equivalent services could have been obtained from an unaffiliated third party and will generally be calibrated, in the case of fees borne by a portfolio company, to the size of the portfolio company and, with respect to value creation planning services, will also be calibrated based upon the scale of the required transformation, (y) any such fees borne by MCF1 or a portfolio company in connection with Licensing Arrangements shall be charged at rates not in excess of those that would otherwise be charged to a third party and (z) none of the GP, MCM, Motive Create or any of their respective affiliates shall receive compensation for Specialized Operational Services in the form of earn outs or equity incentives from a portfolio company. In addition, Specialized Operational Services may also include the reimbursement, at cost, of any third-party software or infrastructure expenses incurred by the person providing such Specialized Operational Services in connection with the provision of such Specialized Operational Services.

In order to ensure that the conditions above are satisfied with respect to Specialized Operational Services provided by Motive Create, MCM has voluntarily established a committee (the "Conflicts Committee") to review and approve any arrangements between a Motive Fund and/or its portfolio companies, on the one hand, and any affiliates that present a conflict of interest as an additional control. MCM's Conflicts Committee currently consists of six senior members of Motive, including the firm's Managing Partner, CFO and CCO.

As of August 31, 2025, MCF1 and its portfolio companies have incurred a life-to-date total of \$17,189,544 of Specialized Operational Services, which will not offset MCF1's management fee. Of this total amount, \$1,391,422 was incurred by MCF1 in connection with due diligence services provided by Motive Create, and \$15,798,121 was incurred by MCF1 and its portfolio companies for Specialized Operational Services related to ongoing value creation services provided by Motive Create to MCF1's portfolio companies.

Special income

Any transaction, directors', management, monitoring, consulting and break-up fees and other similar fees received by means the GP, MCM, the key persons of MCF1 or their respective officers, directors, managers, employees or affiliates (each, a "Special Income Recipient") in connection with any investment, proposed investment or portfolio company, net of unreimbursed transaction expenses incurred by such Special Income Recipient or its affiliates in respect of such Investment ("Special Income"), will be applied to reduce the MCF1 management Fee for the following quarterly period. Certain Special Income Recipients and other persons affiliated with MCM, including its affiliates, employees, Industry Partners and certain consultants, are expected to receive certain additional fees which (either by nature of their character or the character of the applicable recipient) will not constitute "Special Income," will not be shared with MCF1 or its limited partners, and will not reduce MCF1's management fee (such fees, "Additional Fee Income").

Notwithstanding the foregoing, Special Income will only include the portion thereof that is allocable to the limited partners in respect of which the management fee is being assessed and will exclude (a) any compensation in respect of Specialized Operational Services, (b) any compensation paid to the Special Income Recipients by or in respect of co-investors or strategic co-investment vehicles, (c) any compensation paid to MCM or its affiliates in connection with office leases or other ordinary-course contracts entered into with portfolio companies and (d) any compensation paid to Industry Partners.

Special Income may be payable in the form of equity interests, profit interests, options, warrants or other non-cash compensation; provided that non-cash Special Income will be deemed received when converted into cash and upon the termination of MCF1, the fair market value of any non-cash compensation which has not been previously realized will be deemed received as of such date of termination.

To the extent that the offset of Special Income would reduce the management fee for a given quarterly period below zero, such offset will be carried forward and reduce future installments of the management fee. If upon dissolution of MCF1, any excess Special Income remains, MCM will return to MCF1 for the benefit of the Partners an amount equal to such unapplied excess amount; provided that any limited partner may waive its right to receive its pro rata portion of such amount, in which case such amount may be retained by the original recipient(s) of such Special Income.

As noted above, affiliate fees received by Special Income Recipients will only constitute Special Income to the extent of MCF1's allocable portion of such fees (generally equal to MCF1's pro rata interest in the portfolio company generating such fees) and, due to the fact that MCF1 will from time to time be a minority investor in a portfolio company (relative to Motive-affiliated co-investors and/or relative to other non-affiliated co-investors in the portfolio company), a substantial portion of such fees which are not attributable to MCF1 will not constitute Special Income, offset the MCF1 management fee, or otherwise inure to the benefit of MCF1 or any Limited Partner. For the avoidance of doubt, MCF1's management fee will not be offset by any Additional Fee Income that is attributable to Motive managed co-investment vehicles and/or non-affiliated co-investors, and the calculation of the management fee offset does not take into account whether such non-affiliated co-investors are also entitled to receive fees directly from the applicable portfolio company.

Motive retained	26.3%	288,988			

Note:

1. Services fees are one-time events, whereas Monitoring Fees are contributed quarterly. Any Services Fees or Monitoring Fees that are retained by Motive in accordance with the governing documents of the applicable fund will not reduce the management fee payable by such fund or be shared with such fund or its limited partners.
2. Represents an annual Monitoring Fee of \$2,250,000, beginning in Q2 2021.
3. Percentages per cap-table at time of original investment for InvestCloud and Wilshire, and at time of follow-on for Advicent.
4. Quarterly fee beginning Q1 2021, calculated in arrears for preceding quarter. Calculation is a base fee rate multiplied by quarterly book value of company.
